

American Heart Journal

The international publication for the study of the heart and circulation

Editor in Chief: DEAN T. MASON, M.D. San Francisco, Calif.

Managing Editor: LESLIE J. FLATT San Francisco, Calif.

Senior Manuscript Editor: PETER MALIK St. Louis, Mo.

Subject index*

A

ACE inhibitors; see Angiotensin-converting enzyme inhibitors

Acetylsalicylic acid; see Aspirin

Activities of daily living

Estimation of maximum oxygen uptake from clinical data: performance of the Specific Activity Scale (Lee et al.). 1988;115:203-4 (Brief comm.)

Actomyosin ATPase; see Adenosine triphosphatase

Acute myocardial infarction; see Myocardial infarction

Adaptation, psychological

Type A behavior: a frequently misdiagnosed and rarely treated medical disorder (Friedman). 1988;115:930-6 (Editorial)

Adenoma

Colonic villous adenoma, polyp, and leiomyoma presenting with *Streptococcus bovis* endocarditis (Ben-Haim et al.). 1988;115:192-5 (Brief comm.)

Adenosine triphosphatase

Human myocardial adenosine triphosphatase activities in health and heart failure (Unverferth et al.). 1988;115:139-46

Adenosine triphosphate

Biochemical regulation of developed intraventricular systolic pressure (Wikman-Coffelt et al.). 1988;115:876-91 (Prog. cardiol.)

Comparative effects of adenosine triphosphate on accessory pathway and atrioventricular nodal conduction (Rinne et al.). 1988;115:1042-7

Adenylprophosphate; see Adenosine triphosphate

Adrenergic beta receptor blockers

Beta-adrenergic blockers in pregnancy (Frishman and Chesser). 1988;115:147-52 (Curriculum cardiol.)

Beta-blocker therapy in patients with ventricular tachyarrhythmias in the setting of left ventricular dysfunction (Brodsky et al.). 1988;115:799-808

Plasma catecholamine levels in acute myocardial infarction: influence of beta-adrenergic blockade and relation to central hemodynamics (Murray et al.). 1988;115:38-44

Preservation of the end-systolic pressure/end-systolic dimension relation following pindolol in congestive heart failure (Binkley et al.). 1988;115:1245-50

Prophylaxis of post-myocardial infarction dysrhythmias by long-term timolol therapy (Ranganathan et al.). 1988;115:340-50

Adrenergic beta receptor blockers—Cont'd

Reduction in digitalis-associated postinfarction mortality with nadolol in conscious dogs (Lynch et al.). 1988;115:67-76

Adrenergic receptors; see Receptors, adrenergic

Adrenoceptors; see Receptors, adrenergic

Aged

Simultaneous percutaneous aortic valvuloplasty and coronary artery angioplasty in an elderly patient (Ports et al.). 1988;115:672-5 (Brief comm.)

Alkalosis

Systemic alkalosis as a provocative test for coronary artery spasms in patients with infrequent resting chest pain (Weber et al.). 1988;115:54-9

Alpha interferon; see Interferon, type I

Amiodarone

Clinical and electrophysiologic effects of amiodarone in patients with atrial fibrillation complicating the Wolff-Parkinson-White syndrome (Feld et al.). 1988;115:102-7

Concentration response relationships of amiodarone and desethylamiodarone (Connolly et al.). 1988;115:1208-13

Efficacy of intravenous amiodarone as short-term treatment for refractory ventricular tachycardia (Klein et al.). 1988;115:96-101

Electrophysiologic effects of desethylamiodarone, an active metabolite of amiodarone: comparison with amiodarone during chronic administration in rabbits (Kato et al.). 1988;115:351-9

Oral amiodarone loading therapy. I. The effect on serial signal-averaged electrocardiographic recordings and the QTc in patients with ventricular tachyarrhythmias (Borbola and Denes). 1988;115:1202-8

Aneurysm

Ruptured aneurysm of sinus of Valsalva: recognition by Doppler color flow mapping (Chia et al.). 1988;115:686-8 (Brief comm.)

Submitral aneurysm diagnosed by left ventricular contrast echocardiography (Shah et al.). 1988;115:682-4 (Brief comm.)

Aneurysm, aortic; see Aortic aneurysm

Aneurysm, arteriovenous; see Arteriovenous fistula

Aneurysm, coronary; see Coronary aneurysm

Aneurysm, dissecting

Color flow Doppler assessment of aortic regurgitation complicated by aneurysmal dilation and dissection of the ascending aorta in the Marfan syndrome (Liu et al.). 1988;115:1118-9 (Brief comm.)

Aneurysm, infected

Echocardiography and digital subtraction angiography in detection of mycotic false aneurysm complicating coarctation of the aorta (de Sá et al.). 1988;115:898-900 (Brief comm.)

*January, Part 1, pp. 1-238; January, Part 2, pp. 239-296; February, pp. 297-498; March, pp. 499-710; April, pp. 711-936; May, pp. 937-1148; June, pp. 1149-1402.

Angina, preinfarction; see Angina, unstable

Angina, unstable

- Aneurysm of the left aortic sinus causing coronary compression and unstable angina: successful repair by isolated closure of the aneurysm (Gallet et al.). 1988;115:1308-10 (Brief comm.)
- Current concepts in unstable myocardial ischemia (Bashour et al.). 1988;115:850-61 (Curriculum cardiol.)
- Decrease in frequency of anginal episodes by control of thrombin generation with low-dose heparin: a controlled cross-over randomized study (Neri Sereni et al.). 1988;115:60-7
- Management of patients with prolonged ischemic chest pain without acute myocardial infarction (Wilson and Irving). 1988;115:1182-5

Angina pectoris; see also Angina, unstable; Angina pectoris, drug therapy; Chest pain

- Long-term prognosis of medically treated patients with vasospastic angina and no fixed significant coronary atherosclerosis (Scholl et al.). 1988;115:559-64
- Multiple coronary arteriocameral fistulas as a cause of myocardial ischemia (Cottier et al.). 1988;115:181-4 (Brief comm.)
- Recurrent ischemia in the zone of prior myocardial infarction: results of coronary angioplasty of the infarct-related artery (Hopkins et al.). 1988;115:14-9
- Relationship between location of chest pain and site of coronary artery occlusion (Lichstein et al.). 1988;115:564-8
- ST-T isointegral analysis of exercise stress body surface mapping for identifying ischemic areas in patients with angina pectoris (Nakajima et al.). 1988;115:1013-21
- Systemic alkalosis as a provocative test for coronary artery spasm in patients with infrequent resting chest pain (Weber et al.). 1988;115:54-9

Angina pectoris, drug therapy

- Comparative dosing and efficacy of continuous-release nifedipine versus standard nifedipine for angina pectoris: clinical response, exercise performance, and plasma nifedipine levels (Vetrovec et al.). 1988;115:793-8
- Effect of pharmacologic therapy on angina frequency, ST segment depression during ambulatory ECG monitoring, and treadmill performance in patients with chronic stable mild angina (Kawanishi et al.). 1988;115:220-7 (Symposium)
- The total vascular burden, peripheral and coronary: vasodilator effects of nifedipine (Opie and Commerford). 1988;115:228-38 (Symposium)

Angiography

- Angiographic coronary morphology in survivors of cardiac arrest (Lo et al.). 1988;115:781-5
- Anomalous origin of the right coronary artery from the left sinus of Valsalva: echocardiographic-angiographic correlations (Kessler et al.). 1988;115:470-3 (Brief comm.)
- Echocardiography and digital subtraction angiography in detection of mycotic false aneurysm complicating coarctation of the aorta (de Sá et al.). 1988;115:898-900 (Brief comm.)
- Findings on routine right heart catheterization in patients with suspected coronary artery disease (Barron et al.). 1988;115:1193-8

Angiography, radionuclide; see Radionuclide angiography

Angioplasty, transluminal

- Acute myocardial infarction after normal maximal exercise test and reperfusion by emergency coronary angioplasty (Tuzcu et al.). 1988;115:1124-7 (Brief comm.)
- Balloon angioplasty for coarctation of the aorta: immediate and long-term results (Rao et al.). 1988;115:657-75 (Prog. cardiol.)
- Cinevideodensitometric analysis of the effect of coronary angioplasty on coronary stenotic dimensions (Nichols et al.). 1988;115:722-32
- Combined percutaneous aortic valvuloplasty and coronary angioplasty (Hamad et al.). 1988;115:176-7 (Brief comm.)
- Coronary angioplasty immediately after thrombolysis in 115 consecutive patients with acute myocardial infarction (Suryapranata et al.). 1988;115:519-29
- Coronary angioplasty of multiple vessels in corrected transposition with situs inversus (DiSciascio et al.). 1988;115:892-4 (Brief comm.)
- Coronary angioplasty for patients with multivessel coronary artery disease: follow-up clinical status (Thomas et al.). 1988;115:8-13
- Coronary angioplasty of septal perforator (Trivedi et al.). 1988;115:466-8 (Brief comm.)

Angioplasty, transluminal—Cont'd

- Coronary dissection: A predictor of restenosis? (Matthews et al.). 1988;115:547-54
- Fiberoptic study on the effects of transluminal angioplasty in experimental occlusive arterial thrombosis (Tomaru et al.). 1988;115:312-7
- Improved regional and global diastolic performance in patients with coronary artery disease after percutaneous transluminal coronary angioplasty (Mizuno et al.). 1988;115:302-6
- Improvement in regional wall motion after percutaneous transluminal coronary angioplasty during acute myocardial infarction: utility of two-dimensional echocardiography (Presti et al.). 1988;115:1149-55
- Inadequate subendocardial oxygen delivery during fluorocarbon perfusion in a canine model of ischemia (Christensen et al.). 1988;115:30-7
- Infarct vessel status after intravenous tissue plasminogen activator and acute coronary angioplasty: prediction of clinical outcome (Grines et al.). 1988;115:1-7
- Preservation of left ventricular ejection fraction during percutaneous transluminal coronary angioplasty by distal transcatheter coronary perfusion of oxygenated Fluosol DA 20% (Jaffe et al.). 1988;115:1156-64
- Progression of coronary artery disease after percutaneous transluminal coronary angioplasty (Hwang et al.). 1988;115:297-301
- Recurrent ischemia in the zone of prior myocardial infarction: results of coronary angioplasty of the infarct-related artery (Hopkins et al.). 1988;115:14-9
- Resolution of complete heart block after right coronary artery angioplasty (Moreyra et al.). 1988;115:179-81 (Brief comm.)
- The resolution of coronary collaterals after successful percutaneous transluminal coronary angioplasty (Klein et al.). 1988;115:554-8
- Rotational atherectomy in atherosclerotic rabbit iliac arteries (Hansen et al.). 1988;115:160-5 (Prog. cardiol.)
- Simultaneous percutaneous aortic valvuloplasty and coronary artery angioplasty in an elderly patient (Ports et al.). 1988;115:672-5 (Brief comm.)
- Superior vena cava syndrome treated by percutaneous transluminal balloon angioplasty (Walpole et al.). 1988;115:1303-4 (Brief comm.)
- Transient loss of R wave during percutaneous transluminal coronary angioplasty (Turgeman et al.). 1988;115:1304-6 (Brief comm.)

Angiosarcoma; see Hemangiosarcoma

Angioscopy

- Fiberoptic angioscopy of cardiac chambers, valves, and great vessels using a guiding balloon catheter in dogs (Uchida et al.). 1988;115:1297-1302 (Prog. cardiol.)

Angiotensin-converting enzyme inhibitors

- ACE inhibition for the failing heart: experience with captopril (Faxon). 1988;115:1085-93 (Curriculum cardiol.)

Animals, laboratory; see also Disease models, animal

- Fiberoptic angiography of cardiac chambers, valves, and great vessels using a guiding balloon catheter in dogs (Uchida et al.). 1988;115:1297-1302 (Prog. cardiol.)
- Induction of partial alterations in atrioventricular conduction in dogs by percutaneous emission of high-frequency currents (López-Merino et al.). 1988;115:1214-21

ANP; see Natriuretic peptides, atrial

Anti-arrhythmia agents

- Beta-blocker therapy in patients with ventricular tachyarrhythmias in the setting of left ventricular dysfunction (Brodsky et al.). 1988;115:799-808
- Clinical and electrophysiologic effects of amiodarone in patients with atrial fibrillation complicating the Wolff-Parkinson-White syndrome (Feld et al.). 1988;115:102-7
- Concentration response relationships of amiodarone and desethylamiodarone (Connolly et al.). 1988;115:1208-13
- Effect of oral combination therapy with mexiletine and quinidine on left and right ventricular function (Sheldon et al.). 1988;115:1030-6
- Efficacy of intravenous amiodarone as short-term treatment for refractory ventricular tachycardia (Klein et al.). 1988;115:96-101
- Electrophysiologic effects of desethylamiodarone, an active metabolite of amiodarone: comparison with amiodarone dur-

Anti-arrhythmia agents—Cont'd
ing chronic administration in rabbits (Kato et al). 1988; 115:351-9

Intravenous lorcainide for symptomatic ventricular tachyarrhythmias: comparison with lidocaine and oral lorcainide (Hohnloser et al). 1988;115:824-30

Long-term efficacy of mexiletine alone and in combination with class Ia antiarrhythmic drugs for refractory ventricular arrhythmias (Whitford et al). 1988;115:360-6

Oral amiodarone loading therapy. I. The effect on serial signal-averaged electrocardiographic recordings and the QTc in patients with ventricular tachyarrhythmias (Borbola and Denes). 1988;115:1202-8

Propafenone: a new antiarrhythmic agent (Somberg et al). 1988;115:1274-9 (Curriculum cardiol.)

Prophylaxis of post-myocardial infarction dysrhythmias by long-term timolol therapy (Ranganathan et al). 1988; 115:340-50

Successful use of flecainide in atrial fibrillation with rapid ventricular rate in the Wolff-Parkinson-White syndrome (Crijns et al). 1988;115:1317-21 (Brief comm.)

Sustained therapeutic efficacy and safety of oral propafenone for treatment of chronic ventricular arrhythmias: a 2-year experience (Dinh et al). 1988;115:92-6

Utility of the signal-averaged electrocardiogram in patients presenting with sustained ventricular tachycardia or fibrillation while on an antiarrhythmic drug (Nalos et al). 1988;115:108-14

Antifibrillatory agents; see Anti-arrhythmia agents

Antihypertensive agents

The comparative effects of clonidine hydrochloride and nifedipine in the treatment of hypertensive crises (Houston). 1988;115:152-9 (Curriculum cardiol.)

The effects of antihypertensive drugs on glucose intolerance in hypertensive nondiabetics and diabetics (Houston). 1988;115:640-56 (Curriculum cardiol.)

Impact of smoking on heart attacks, strokes, blood pressure control, drug dose, and quality of life aspects in the International Prospective Primary Prevention Study in Hypertension (Bühler et al). 1988;115:282-8 (Symposium)

The Medical Research Council Hypertension Trial: the smoking patient (Dollery and Brennan). 1988;115:276-81 (Symposium)

Strategies to reduce risk factors in hypertensive patients who smoke (Kaplan). 1988;115:288-94 (Symposium)

Antithrombotic agents; see Fibrinolytic agents

Aortic aneurysm

Aneurysm of the left aortic sinus causing coronary compression and unstable angina: successful repair by isolated closure of the aneurysm (Gallet et al). 1988;115:1308-10 (Brief comm.)

Color flow Doppler assessment of aortic regurgitation complicated by aneurysmal dilation and dissection of the ascending aorta in the Marfan syndrome (Liu et al). 1988;115:1118-9 (Brief comm.)

Group A β -hemolytic streptococcal endocarditis precipitating rupture of sinus of Valsalva aneurysm: evaluation by two-dimensional Doppler, and contrast echocardiography (Coooper et al). 1988;115:1132-4 (Brief comm.)

Aortic coarctation

An acquired case of aortic coarctation (Keech et al). 1988; 115:1328-32 (Brief comm.)

Balloon angioplasty for coarctation of the aorta: immediate and long-term results (Rao et al). 1988;115:657-75 (Prog. cardiol.)

Echocardiography and digital subtraction angiography in detection of mycotic false aneurysm complicating coarctation of the aorta (de Sá et al). 1988;115:898-900 (Brief comm.)

Long-term systemic hypertension in children after successful repair of coarctation of the aorta (Simsolo et al). 1988; 115:1268-73

Rheologic genesis of aortic coarctation in a canine model (Langdon et al). 1988;115:489-92 (Editorial)

Aortic incompetence; see Aortic valve insufficiency

Aortic regurgitation; see Aortic valve insufficiency

Aortic sinus; see Sinus of Valsalva

Aortic stenosis; see Aortic valve stenosis

Aortic subvalvular stenosis

Two-dimensional color Doppler in discrete membranous subaortic stenosis (Friedman et al). 1988;115:688-91 (Brief comm.)

Aortic valve, surgery

Doppler evaluation of bioprosthetic and mechanical aortic valves: data from four models in 107 stable, ambulatory patients (Ramirez et al). 1988;115:418-25

Aortic valve insufficiency

Color flow Doppler assessment of aortic regurgitation complicated by aneurysmal dilation and dissection of the ascending aorta in the Marfan syndrome (Liu et al). 1988;115:1118-9 (Brief comm.)

Aortic valve prosthesis; see Heart valve prosthesis

Aortic valve stenosis

Evaluation of balloon aortic valvuloplasty with transesophageal echocardiography (Cyran et al). 1988;115:460-2 (Brief comm.)

A practical application of Doppler echocardiography for the assessment of severity of aortic stenosis (Harrison et al). 1988;115:622-8

Preliminary experience in the use of ultrafast computed tomography to diagnose aortic valve stenosis (MacMillan et al). 1988;115:665-71 (Prog. cardiol.)

Aortic valvuloplasty; see Balloon dilatation

Aortocoronary bypass; see also Myocardial revascularization

Assessment of myocardial oxidative stress in patients after myocardial revascularization (Ferreira et al). 1988;115:307-12

Bone wax granuloma causing saphenous vein graft thrombosis (Chun et al). 1988;115:1310-3 (Brief comm.)

Intermediate-term results of the endocardial surgical approach for anomalous atrioventricular bypass tracts (Kirklin et al). 1988;115:444-7 (Prog. cardiol.)

Aortopulmonary septal defect

Detection of aortopulmonary window by pulsed and color Doppler echocardiography (Alboliras et al). 1988;115:900-2 (Brief comm.)

Apoplexy; see Cerebrovascular disorders

Apoptosis

Changes in plasma lipids and apoproteins associated with physical training in middle-aged sedentary men (Hespel et al). 1988;115:786-92

Arachnodactyly; see Marfan syndrome

Arrhythmia

Absence of significant postdefibrillation bradycardia in patients with automatic implantable defibrillators (Niazi et al). 1988;115:830-6

Are 24 hours of ambulatory ECG monitoring necessary for a patient after infarction? (Davis et al). 1988;115:83-91

Arrhythmias after repair of secundum atrial septal defect: the influence of surgical modification (Bink-Boelkens et al). 1988;115:629-33

Cardiomyopathy with arrhythmias and ectodermal dysplasia: a previously unreported association (Hammill et al). 1988; 115:373-7

Critical analysis of cineangiographic criteria for diagnosis of arrhythmogenic right ventricular dysplasia (Daubert et al). 1988;115:448-59 (Prog. cardiol.)

Factors that determine the occurrence of reperfusion arrhythmias (Bolli and Patel). 1988;115:20-9

Induction of partial alterations in atrioventricular conduction in dogs by percutaneous emission of high-frequency currents (López-Merino et al). 1988;115:1214-21

Initiation of sustained ventricular arrhythmia resulting from R wave-synchronous AICD discharge (Gottlieb et al). 1988; 115:915-7 (Brief comm.)

"Irregular" ventricular parasystole: the influence of sinus rhythm on a parasystolic focus (Oreto et al). 1988;115:121-33

When "sudden cardiac death" is not so sudden: lessons learned from the automatic implantable defibrillator (Guarnieri et al). 1988;115:205-7 (Editorial)

Arrhythmia, drug therapy; see Anti-arrhythmia agents

Arteriocameral fistula; see Arteriovenous fistula

Arteriography; see Angiography

Arteriosclerosis, coronary; see Coronary arteriosclerosis

Arteriovenous fistula

Coronary artery fistula after mitral valve surgery (Lee et al). 1988;115:1128-30 (Brief comm.)

Multiple coronary arteriocameral fistulas as a cause of myocardial ischemia (Cottier et al). 1988;115:181-4 (Brief comm.)

Arteriovenous malformations, cerebral; see Cerebral arteriovenous malformations

Arteriovenous shunt, surgical
Exclusive origin of both coronary arteries from a hypoplastic right ventricle complicating an extreme tetralogy of Fallot: lethal myocardial infarction following a palliative shunt (Garcia et al.). 1988;115:198-201 (Brief comm.)

Aspirin
Short-term infarct vessel patency with aspirin and dipyridamole started 24 to 36 hours after intravenous streptokinase (Hays et al.). 1988;115:717-21

Asymmetric septal hypertrophy; see Cardiomyopathy, hypertrophic

Atherosclerosis; see Coronary arteriosclerosis

ATP; see Adenosine triphosphate

ATPase; see Adenosine triphosphatase

Atrial ectopic tachycardia; see Tachycardia, ectopic atrial

Atrial fibrillation
Clinical and electrophysiologic effects of amiodarone in patients with atrial fibrillation complicating the Wolff-Parkinson-White syndrome (Feld et al.). 1988;115:102-7
Signal-averaged electrocardiograms in patients with atrial fibrillation or flutter (Engel et al.). 1988;115:592-7
Spontaneous conversion of atrial flutter to antidiromic atrioventricular reciprocating tachycardia in the Wolff-Parkinson-White syndrome (Huycke et al.). 1988;115:917-9 (Brief comm.)
Successful use of flecainide in atrial fibrillation with rapid ventricular rate in the Wolff-Parkinson-White syndrome (Crijns et al.). 1988;115:1317-21 (Brief comm.)

Atrial flutter
Signal-averaged electrocardiograms in patients with atrial fibrillation or flutter (Engel et al.). 1988;115:592-7
Spontaneous conversion of atrial flutter to antidiromic atrioventricular reciprocating tachycardia in the Wolff-Parkinson-White syndrome (Huycke et al.). 1988;115:917-9 (Brief comm.)

Atrial natriuretic factor; see Natriuretic peptides, atrial

Atrial septal defects; see Heart septal defects, atrial

Atrial thrombus
Treatment of right atrial thrombus with urokinase (Goldhaber et al.). 1988;115:894-7 (Brief comm.)

Atriopeptins; see Natriuretic peptides, atrial

Atrioventricular block; see Heart block

Atrioventricular canal
Atrioventricular canal with intact atrial septum (Rowley et al.). 1988;115:902-6 (Brief comm.)

Atrioventricular nodal reentry tachycardia; see Tachycardia, atrioventricular nodal reentry

Atrioventricular node conduction; see Heart conduction system

Auricular fibrillation; see Atrial fibrillation

Auricular flutter; see Atrial flutter

Auriculo-ventricular dissociation; see Heart block

Autoimmune diseases
Giant cell myocarditis: An autoimmune disease? (Humbert et al.). 1988;115:485-7 (Brief comm.)

Ayerza's syndrome; see Hypertension, pulmonary

B

Bacterial endocarditis; see Endocarditis, bacterial

Balloon angioplasty; see Angioplasty, transluminal

Balloon dilatation
Bacterial endocarditis after percutaneous aortic valvuloplasty (Cujec et al.). 1988;115:178-9 (Brief comm.)
Balloon pulmonary valvotomy: palliation for cyanotic heart disease (Boucek et al.). 1988;115:318-22
Balloon pulmonary valvuloplasty for congenital cyanotic heart defects (Rao and Brias). 1988;115:1105-10 (Prog. cardiol.)
Combined percutaneous aortic valvuloplasty and coronary angioplasty (Hamad et al.). 1988;115:176-7 (Brief comm.)
Evaluation of balloon aortic valvuloplasty with transesophageal echocardiography (Cyran et al.). 1988;115:460-2 (Brief comm.)
Fiberoptic angiography of cardiac chambers, valves, and great vessels using a guiding balloon catheter in dogs (Uchida et al.). 1988;115:1297-1302 (Prog. cardiol.)

Balloon dilatation—Cont'd
Long-term results of balloon pulmonary valvuloplasty of valvar pulmonic stenosis (Rao et al.). 1988;115:1291-6 (Prog. cardiol.)
Percutaneous transseptal balloon mitral valvuloplasty: the Chinese experience in 30 patients (Chen et al.). 1988;115:937-47
Problems encountered with catheter balloon valvuloplasty of bioprosthetic aortic valves (McKay et al.). 1988;115:463-5 (Brief comm.)
Simultaneous percutaneous aortic valvuloplasty and coronary artery angioplasty in an elderly patient (Ports et al.). 1988;115:672-5 (Brief comm.)

Balloon valvuloplasty; see Balloon dilatation

Behavior
Type A behavior: a frequently misdiagnosed and rarely treated medical disorder (Friedman). 1988;115:930-6 (Editorial)
Type A behavior (Scherwitz) (Letter); (Shekelle et al) (Letter); (Friedman) (Reply). 1988;115:1348-52

Beta adrenergic receptor blockers; see Adrenergic beta receptor blockers

Bicycle ergometry test; see Exercise test

Biopsy, cardiac
Right atrial angiosarcoma diagnosed by cardiac biopsy (Adachi et al.). 1988;115:482-5 (Brief comm.)

Björk-Shiley valve
Evaluation of Björk-Shiley prosthetic valves by real-time two-dimensional Doppler echocardiographic flow mapping (Dittrich et al.). 1988;115:133-8

Blood circulation
Aortic and right atrial systolic pressures during cardiopulmonary resuscitation: a potential indicator of the mechanism of blood flow (Raessler et al.). 1988;115:1021-9
Comparative electrocardiographic and myocardial blood flow effects of rapid atrial pacing and dipyridamole infusion in dogs with chronic coronary artery occlusion (Mirvis et al.). 1988;115:984-9

Blood circulation, collateral; see Collateral circulation

Blood platelets
Cigarette smoking and hemostatic function (FitzGerald et al.). 1988;115:267-71 (Symposium)
Thromboxane synthetase inhibition reduces ventricular irritability after coronary occlusion and reperfusion (Austin et al.). 1988;115:505-9

Blood pressure
Aortic and right atrial systolic pressures during cardiopulmonary resuscitation: a potential indicator of the mechanism of blood flow (Raessler et al.). 1988;115:1021-9
Biochemical regulation of developed intraventricular systolic pressure (Wikman-Coffelt et al.). 1988;115:876-91 (Prog. cardiol.)
Effects of smoking on the heart and peripheral circulation (Trap-Jensen). 1988;115:263-7 (Symposium)
Impact of smoking on heart attacks, strokes, blood pressure control, drug dose, and quality of life aspects in the International Prospective Primary Prevention Study in Hypertension (Böhler et al.). 1988;115:282-8 (Symposium)
Pulsus paradoxus: definition and relation to the severity of cardiac tamponade (Curtiss et al.). 1988;115:391-8
Smoking and mechanisms of cardiovascular control (Robertson et al.). 1988;115:258-63 (Symposium)

Blood pressure, high; see Hypertension

Blood pressure, low; see Hypotension

Bradyarrhythmia; see Arrhythmia

Brief communications
Brief communications. 1988;115:176-204; 460-88; 672-98; 892-923; 1118-40; 1303-36

Bundle of Kent; see Heart conduction system

Bundle-branch block
Critical analysis of cineangiographic criteria for diagnosis of arrhythmogenic right ventricular dysplasia (Daubert et al.). 1988;115:448-59 (Prog. cardiol.)

C

Calcification, pathologic; see Calcinosis

Calcinosis
Value of fluoroscopy in the detection of coronary stenosis: influence of age, sex, and number of vessels calcified on diagnostic efficacy (Uretsky et al.). 1988;115:323-33

Calcium antagonists; see Calcium channel blockers
Calcium blockers, exogenous; see Calcium channel blockers
Calcium channel blockers
Cardioprotective actions of nisoldipine in postreperfusion myocardial ischemia (Mentley et al). 1988;115:948-54
Combination of calcium channel blocker and thrombolytic therapy in acute myocardial infarction (Erbel et al). 1988;115:529-38
Combined effects of calcium antagonists and nitroglycerin on large coronary artery diameter (Schwartz and Bach). 1988;115:964-9
Effect of the second-generation calcium channel blocker nisoldipine on left ventricular contractility in cardiac failure (Lewis et al). 1988;115:1238-44
Total ischemic burden: effect of vasoactive agents (Cohn). 1988;115:215-9 (Symposium)

Candida
Echocardiography and digital subtraction angiography in detection of mycotic false aneurysm complicating coarctation of the aorta (de Sá et al). 1988;115:898-900 (Brief comm.)

Captopril
ACE inhibition for the failing heart: experience with captopril (Faxon). 1988;115:1085-93 (Curriculum cardiol.)
Atrial natriuretic peptide in congestive heart failure: postural changes and reset with chronic captopril therapy (Rouleau et al). 1988;115:1060-7

Cardiac arrest; see Heart arrest
Cardiac depressants; see Anti-arrhythmia agents
Cardiac pacing, artificial; see also Pacemaker, artificial
Changes in cycle length at the onset of sustained tachycardias—importance for antitachycardiac pacing (Geibel et al). 1988;115:588-92
Hemodynamic responses to isolated increments in heart rate by atrial pacing after a Fontan procedure (Barber et al). 1988;115:837-41

Cardiac tamponade
Diastolic collapse of the left and right ventricles in cardiac tamponade (Conrad and Byrnes). 1988;115:475-8 (Brief comm.)
Late localized tamponade causing superior vena cava syndrome: an unusual complication of aortic valve replacement (Aebischer et al). 1988;115:1130-2 (Brief comm.)

Cardiomyopathy, congestive
Abnormal coronary hemodynamics and myocardial energetics in patients with chronic heart failure caused by ischemic heart disease and dilated cardiomyopathy (De Marco et al). 1988;115:809-15
Cardiomyopathy with arrhythmias and ectodermal dysplasia: a previously unreported association (Hammill et al). 1988;115:373-7
Dilated cardiomyopathy associated with natural killer cell deficiency (Itagaki et al). 1988;115:1326-8 (Brief communication)
Familial idiopathic dilated cardiomyopathy (Fragola et al). 1988;115:912-4 (Brief comm.)
Inotropic response in CHF: myocarditis versus dilated cardiomyopathy (Meyer et al) (Letter). 1988;115:1346-8
Human myocardial adenosine triphosphatase activities in health and heart failure (Unverferth et al). 1988;115:139-46

Cardiomyopathy, hypertrophic
Localized septal hypertrophy: Part of the spectrum of hypertrophic cardiomyopathy or an incidental echocardiographic finding? (Belenk et al). 1988;115:385-90

Cardiopulmonary arrest; see Heart arrest
Cardiopulmonary resuscitation; see Resuscitation
Cardiovascular system, pathology
The cardiovascular pathology of smoking (McGill). 1988;115:250-7 (Symposium)

Cardioversion; see Electric countershock
CAT scan, radionuclide; see Tomography, emission computed
Catecholamines
Effects of smoking on the heart and peripheral circulation (Trap-Jensen). 1988;115:263-7 (Symposium)
Plasma catecholamine levels in acute myocardial infarction: influence of beta-adrenergic blockade and relation to central hemodynamics (Murray et al). 1988;115:38-44

Catheterization, balloon; see Balloon dilatation
Catheterization, heart; see Heart catheterization

Cerebral arteriovenous malformations
Doppler findings in nonimmune hydrops fetalis and cerebral arteriovenous malformation (Johnson et al). 1988;115:1138-40 (Brief comm.)

Cerebrovascular disorders
Impact of smoking on heart attacks, strokes, blood pressure control, drug dose, and quality of life aspects in the International Prospective Primary Prevention Study in Hypertension (Bühler et al). 1988;115:282-8 (Symposium)

Channel blockers, calcium; see Calcium channel blockers

Chest injuries; see Thorax, injuries

Chest pain; see also Angina pectoris
Influence of exercise on plasma atrial natriuretic factor levels in patients with myocardial infarction (Nishikimi et al). 1988;115:753-60
Management of patients with prolonged ischemic chest pain without acute myocardial infarction (Wilson and Irving). 1988;115:1182-5
Relationship between location of chest pain and site of coronary artery occlusion (Lichstein et al). 1988;115:564-8
Systemic alkalosis as a provocative test for coronary artery spasms in patients with infrequent resting chest pain (Weber et al). 1988;115:54-9

Cholesterol
Lipid effects of smoking (Mjøle). 1988;115:272-5 (Symposium)

Cholesterol HDL; see Lipoproteins, HDL cholesterol

Cinevideodensitometry
Cinevideodensitometric analysis of the effect of coronary angioplasty on coronary stenotic dimensions (Nichols et al). 1988;115:722-32

Clonidine
The comparative effects of clonidine hydrochloride and nifedipine in the treatment of hypertensive crises (Houston). 1988;115:152-9 (Curriculum cardiol.)

Coarctation, aortic; see Aortic coarctation

Cocaine
Cardiovascular effects of cocaine: an autopsy study of 40 patients (Virmani et al). 1988;115:1068-76
Myocardial injury associated with polysubstance abuse (Lam and Goldschlager). 1988;115:675-80 (Brief comm.)

Collateral circulation
The resolution of coronary collaterals after successful percutaneous transluminal coronary angioplasty (Klein et al). 1988;115:554-8

Colon polyps
Colonic villous adenoma, polyp, and leiomyoma presenting with *Streptococcus bovis* endocarditis (Ben-Haim et al). 1988;115:192-5 (Brief comm.)

Computerized emission tomography; see Tomography, emission computed

Computerized x-ray tomography; see Tomography, x-ray computed

Congestive cardiomyopathy; see Cardiomyopathy, congestive

Congestive heart failure; see Heart failure, congestive

Contrast media
Echocardiographic imaging of the left ventricle by peripheral intravenous injection of echo contrast agent (Berwing and Schlepper). 1988;115:399-408
Myocardial risk area and peak gray level measurement by contrast echocardiography: effect of microbubble size and concentration, injection rate, and coronary vasodilation (Vandenberg et al). 1988;115:733-9

Coronary angioplasty; see Angioplasty, transluminal

Coronary aneurysm
Development of post-traumatic coronary aneurysm: clinical implications (Wang et al). 1988;115:1306-7 (Brief comm.)

Coronary angiography; see Angiography

Coronary arteriosclerosis
The cardiovascular pathology of smoking (McGill). 1988;115:250-7 (Symposium)

Exercise and sudden cardiac death (Coplan et al). 1988;115:207-12 (Editorial)

Long-term prognosis of medically treated patients with vasospastic angina and no fixed significant coronary atherosclerosis (Scholl et al). 1988;115:559-64
Rotational atherectomy in atherosclerotic rabbit iliac arteries (Hansen et al). 1988;115:160-5 (Prog. cardiol.)

Coronary artery bypass; see Aortocoronary bypass

Coronary artery disease; see Coronary disease

Coronary artery fistula

Coronary artery fistula after mitral valve surgery (Lee et al). 1988;115:1128-30 (Brief comm.)

Coronary artery occlusion; see Coronary thrombosis**Coronary artery vasospasm; see Coronary vasospasm****Coronary atherosclerosis; see Coronary arteriosclerosis****Coronary bypass; see Aortocoronary bypass****Coronary circulation; see also Coronary vessel anomalies; Coronary vessels**

Cinevideodensitometric analysis of the effect of coronary angioplasty on coronary stenotic dimensions (Nichols et al). 1988;115:722-32

Coronary artery fistula after mitral valve surgery (Lee et al). 1988;115:1128-30 (Brief comm.)

Multiple coronary arteriocameral fistulas as a cause of myocardial ischemia (Cottier et al). 1988;115:181-4 (Brief comm.)

Myocardial risk area and peak gray level measurement by contrast echocardiography: effect of microbubble size and concentration, injection rate, and coronary vasodilation (Vandenberg et al). 1988;115:733-9

The resolution of coronary collaterals after successful percutaneous transluminal coronary angioplasty (Klein et al). 1988;115:554-8

Total ischemic burden: effect of vasoactive agents (Cohn). 1988;115:215-9 (Symposium)

Coronary disease; see also Coronary disease, diagnosis; Coronary disease, drug therapy; Coronary disease, mortality; Coronary disease, pathophysiology; Coronary disease, therapy

Coronary dissection: A predictor of restenosis? (Matthews et al). 1988;115:547-54

Coronary heart disease: epidemiology of smoking and intervention studies of smoking (Wilhelmsen). 1988;115:242-9 (Symposium)

Exercise and sudden cardiac death (Coplan et al). 1988;115:207-12 (Editorial)

Lipid effects of smoking (Mjøs). 1988;115:272-5 (Symposium)

The Medical Research Council Hypertension Trial: the smoking patient (Dollery and Brennan). 1988;115:276-81 (Symposium)

One-year follow-up of cardiac and coronary artery disease in infants and children with Kawasaki disease (Chung et al). 1988;115:1263-7

Opening remarks: the need to manage risk factors of coronary heart disease (Mancia). 1988;115:240-2 (Symposium)

Postmenopausal use of estrogen and occlusion of coronary arteries (Gruchow et al). 1988;115:954-63

Sucrose, coronary heart disease, diabetes, and obesity: Do hormones provide a link? (Yudkin). 1988;115:493-8 (Editorial)

Type A behavior: a frequently misdiagnosed and rarely treated medical disorder (Friedman). 1988;115:930-6 (Editorial)

Type A behavior (Scherwitz) (Letter); (Shekelle et al) (Letter); (Friedman) (Reply). 1988;115:1348-52

Coronary disease, diagnosis

Correlation between the signal-averaged electrocardiogram and electrophysiologic study findings in patients with coronary artery disease and sustained ventricular tachycardia (Borboña et al). 1988;115:816-24

Effect of maintenance oral theophylline on dipyridamole thallium-201 myocardial imaging using SPECT and dipyridamole-induced hemodynamic changes (Daley et al). 1988;115:1185-92

Electrocardiographic ST segment depression in coronary heart disease (Becker and Alpert). 1988;115:862-8 (Curriculum cardiol.)

Findings on routine right heart catheterization in patients with suspected coronary artery disease (Barron et al). 1988;115:1193-8

Identification of anatomically extensive coronary artery disease by the exercise ECG ST segment/heart rate slope (Okin et al). 1988;115:1002-13

Left ventricular function in ischemic mitral regurgitation—a precatheterization assessment (Breisblatt et al). 1988;115:77-82

Myocardial risk area and peak gray level measurement by contrast echocardiography: effect of microbubble size and concentration, injection rate, and coronary vasodilation (Vandenberg et al). 1988;115:733-9

Coronary disease, diagnosis—Cont'd

ST-T isointegral analysis of exercise stress body surface mapping for identifying ischemic areas in patients with angina pectoris (Nakajima et al). 1988;115:1013-21

Systemic alkalosis as a provocative test for coronary artery spasm in patients with infrequent resting chest pain (Weber et al). 1988;115:54-9

Value of fluoroscopy in the detection of coronary stenosis: influence of age, sex, and number of vessels calcified on diagnostic efficacy (Uretsky et al). 1988;115:323-33

Coronary disease, drug therapy

Cardioprotective actions of nisoldipine in postreperfusion myocardial ischemia (Mentley et al). 1988;115:948-54

Combined effects of calcium antagonists and nitroglycerin on large coronary artery diameter (Schwartz and Bache). 1988;115:964-9

Comparative electrocardiographic and myocardial blood flow effects of rapid atrial pacing and dipyridamole infusion in dogs with chronic coronary artery occlusion (Mirvis et al). 1988;115:984-92

Effect of pharmacologic therapy on angina frequency, ST segment depression during ambulatory ECG monitoring, and treadmill performance in patients with chronic stable mild angina (Kawanishi et al). 1988;115:220-7 (Symposium)

The effects of antihypertensive drugs on glucose intolerance in hypertensive nondiabetics and diabetics (Houston). 1988;115:640-56 (Curriculum cardiol.)

Reduction in digitalis-associated postinfarction mortality with nadolol in conscious dogs (Lynch et al). 1988;115:67-76

Reduction in infarct size by the prostacyclin analogue iloprost (ZK 36374) after experimental coronary artery occlusion-reperfusion (Chiarillo et al). 1988;115:499-504

Total ischemic burden: effect of vasoactive agents (Cohn). 1988;115:215-9 (Symposium)

The total vascular burden, peripheral and coronary: vasodilator effects of nifedipine (Opie and Commerford). 1988;115:228-38 (Symposium)

Coronary disease, mortality

Incidence and case fatality rates of acute myocardial infarction (1975-1984): the Worcester Heart Attack Study (Goldberg et al). 1988;115:761-7

Ischemic heart disease mortality in American Indians, United States, 1969-1971 and 1979-1981 (Gillum). 1988;115:1141-4 (Editorial)

Coronary disease, physiopathology

Abnormal coronary hemodynamics and myocardial energetics in patients with chronic heart failure caused by ischemic heart disease and dilated cardiomyopathy (De Marco et al). 1988;115:809-15

Association between extent of coronary artery disease and ventricular premature beat frequency after myocardial infarction (Minisi et al). 1988;115:1198-1201

Current concepts in unstable myocardial ischemia (Bashour et al). 1988;115:850-61 (Curriculum cardiol.)

Delayed myocardial ischemia following the cessation of sympathetic stimulation (Hagेंstad and Verrier). 1988;115:45-53

The effects of acute ischemia on the isovolumic index (Mc Gillem et al). 1988;115:978-83

Exercise-induced hypotension as a manifestation of right ventricular ischemia (Rich et al). 1988;115:184-6 (Brief comm.)

Factors that determine the occurrence of reperfusion arrhythmias (Bolli and Patel). 1988;115:20-9

Inadequate subendocardial oxygen delivery during perfluorocarbon perfusion in a canine model of ischemia (Christensen et al). 1988;115:30-7

Increase in experimental infarct size with digoxin in a canine model of myocardial ischemia-reperfusion injury (Lynch et al). 1988;115:1171-82

Impaired fibrinolysis in coronary artery disease (Francis et al). 1988;115:776-80

Myocardial preservation during ischemia and reperfusion (Ip and Levin). 1988;115:1094-1104 (Curriculum cardiol.)

Coronary disease, therapy

Comparative electrocardiographic and myocardial blood flow effects of rapid atrial pacing and dipyridamole infusion in dogs with chronic coronary artery occlusion (Mirvis et al). 1988;115:984-92

Coronary angioplasty of multiple vessels in corrected transposition with situs inversus (DiSciascio et al). 1988;115:892-4 (Brief comm.)

Coronary disease, therapy—Cont'd

Coronary angioplasty for patients with multivessel coronary artery disease: follow-up clinical status (Thomas et al). 1988;115:8-13
Improved regional and global diastolic performance in patients with coronary artery disease after percutaneous transluminal coronary angioplasty (Mizuno et al). 1988;115:302-6 (Clinical investigation)
Progression of coronary artery disease after percutaneous transluminal coronary angioplasty (Hwang et al). 1988;115:297-301
Recurrent ischemia in the zone of prior myocardial infarction: results of coronary angioplasty of the infarct-related artery (Hopkins et al). 1988;115:14-9
Thromboxane synthetase inhibition reduces ventricular irritability after coronary occlusion and reperfusion (Austin et al). 1988;115:505-9
Transient loss of R wave during percutaneous transluminal coronary angioplasty (Turgeon et al). 1988;115:1304-6 (Brief comm.)

Coronary sinus, anatomy

The functional anatomy of the human coronary sinus (Silver and Rowley). 1988;115:1080-4

Coronary thrombosis

Comparative electrocardiographic and myocardial blood flow effects of rapid atrial pacing and dipyridamole infusion in dogs with chronic coronary artery occlusion (Mirvis et al). 1988;115:984-92
The contribution of color Doppler flow imaging to the assessment of a left ventricular thrombus (Maze et al). 1988;115:479-82 (Brief comm.)
Coronary angioplasty immediately after thrombolysis in 115 consecutive patients with acute myocardial infarction (Suryapranata et al). 1988;115:519-29
The effects of acute ischemia on the isovolumic index (McGillem et al). 1988;115:978-83
Effects of nitroglycerin and nifedipine on coronary and systemic hemodynamics during transient coronary artery occlusion (Kern et al). 1988;115:1164-70
Fiberoptic study on the effects of transluminal angioplasty in experimental occlusive arterial thrombosis (Tomaru et al). 1988;115:312-7
Postmenopausal use of estrogen and occlusion of coronary arteries (Gruchow et al). 1988;115:954-63
Relationship between location of chest pain and site of coronary artery occlusion (Lichstein et al). 1988;115:564-8 (Clin. invest.)

Coronary vasospasm

Long-term prognosis of medically treated patients with vasospastic angina and no fixed significant coronary atherosclerosis (Scholl et al). 1988;115:559-64
Systemic alkalosis as a provocative test for coronary artery spasm in patients with infrequent resting chest pain (Weber et al). 1988;115:54-9

Coronary vessel anomalies; see also Coronary circulation

Aneurysm of the left aortic sinus causing coronary compression and unstable angina: successful repair by isolated closure of the aneurysm (Gallet et al). 1988;115:1308-10 (Brief comm.)
Anomalous origin of the right coronary artery from the left sinus of Valsalva: echocardiographic-angiographic correlations (Kessler et al). 1988;115:470-3 (Brief comm.)
Coronary artery fistula after mitral valve surgery (Lee et al). 1988;115:1128-30 (Brief comm.)
Exclusive origin of both coronary arteries from a hypoplastic right ventricle complicating an extreme tetralogy of Fallot: lethal myocardial infarction following a palliative shunt (Garcia et al). 1988;115:198-201 (Brief comm.)
Single coronary artery in association with anomalous right ventricular muscle bundles (Blasetto et al). 1988;115:1122-4 (Brief comm.)
Visualization of an anomalous left main coronary artery with two-dimensional echocardiography (Plehn et al). 1988;115:468-70 (Brief comm.)

Coronary vessels; see also Coronary circulation; Coronary thrombosis

Combined effects of calcium antagonists and nitroglycerin on large coronary artery diameter (Schwartz and Bache). 1988;115:964-9

Coronary vessels—Cont'd

The effects of dopamine and dobutamine on regional function in the presence of rigid coronary stenoses and subcritical impairments of reactive hyperemia (McGillem et al). 1988;115:970-7
Isolated coronary ostial stenosis in men (Tillman et al). 1988;115:1127-8 (Brief comm.)
Coxsackievirus infections
Protective effect of recombinant alpha interferon on coxsackievirus B3 myocarditis in mice (Matsumori et al). 1988;115:1229-32
Curriculum in cardiology
Curriculum in cardiology. 1988;115:147-59; 432-43; 640-56; 850-68; 1085-1104; 1274-90
Cyanosis
Carcinoid heart disease presenting as right-to-left shunt and congestive heart failure: successful surgical treatment (Blick et al). 1988;115:201-3 (Brief comm.)

D

Death, sudden

Cardiac failure and sudden death in the Framingham Study (Kannel et al). 1988;115:869-75 (Prog. cardiol.)
Cushing's syndrome presenting as sudden death (Scott and Friday). 1988;115:487-8 (Brief comm.)
Exercise and sudden cardiac death (Coplan et al). 1988;115:207-12 (Editorial)
Ventricular tachycardia and sudden death in myotonic dystrophy (Hiromasa et al). 1988;115:914-5 (Brief comm.)
When "sudden cardiac death" is not so sudden: lessons learned from the automatic implantable defibrillator (Guarnieri et al). 1988;115:205-7 (Editorial)

Death rate; see Mortality

Defibrillation, electric; see Electric countershock

Desethylamiodarone

Concentration response relationships of amiodarone and desethylamiodarone (Connolly et al). 1988;115:1208-13
Electrophysiologic effects of desethylamiodarone, an active metabolite of amiodarone: comparison with amiodarone during chronic administration in rabbits (Kato et al). 1988;115:351-9

Dexopropranolol; see Propranolol

Dextrose; see Glucose

Diabetes mellitus

The effects of antihypertensive drugs on glucose intolerance in hypertensive nondiabetics and diabetics (Houston). 1988;115:640-56 (Curriculum cardiol.)
Sucrose, coronary heart disease, diabetes, and obesity: Do hormones provide a link? (Yudkin). 1988;115:493-8 (Editorial)

Diagnostic imaging; see also specific technic

Dipyridamole cardiac imaging (Iskandrian et al). 1988;115:432-43 (Curriculum cardiol.)

Diastole

Improved regional and global diastolic performance in patients with coronary artery disease after percutaneous transluminal coronary angioplasty (Mizuno et al). 1988;115:302-6
Left ventricular diastolic function: evaluation by radionuclide angiography (Iskandrian et al). 1988;115:924-9 (Editorial)
Left ventricular systolic and diastolic function after two-stage anatomic correction of transposition of the great arteries (Sandor et al). 1988;115:1257-62

Digitoxin

Reduction in digitalis-associated postinfarction mortality with nadolol in conscious dogs (Lynch et al). 1988;115:67-76

Digoxin

Increase in experimental infarct size with digoxin in a canine model of myocardial ischemia-reperfusion injury (Lynch et al). 1988;115:1171-82

Dihydropyridines

Cardioprotective actions of nisoldipine in postreperfusion myocardial ischemia (Mentley et al). 1988;115:948-54

Dilatation, balloon; see Balloon dilatation

Dilatation, transluminal arterial; see Angioplasty, transluminal

Dilated cardiomyopathy; see Cardiomyopathy, congestive

Diltiazem

Combined effects of calcium antagonists and nitroglycerin on large coronary artery diameter (Schwartz and Bache). 1988;115:964-9

Dipyridamole

Comparative electrocardiographic and myocardial blood flow effects of rapid atrial pacing and dipyridamole infusion in dogs with chronic coronary artery occlusion (Mirvis et al.). 1988;115:984-92

Dipyridamole cardiac imaging (Iskandrian et al.). 1988;115:432-43 (Curriculum cardiol.)

Effect of maintenance oral theophylline on dipyridamole thallium-201 myocardial imaging using SPECT and dipyridamole-induced hemodynamic changes (Daley et al.). 1988;115:1185-92

Short-term infarct vessel patency with aspirin and dipyridamole started 24 to 36 hours after intravenous streptokinase (Hays et al.). 1988;115:717-21

Discrete subaortic stenosis; see Aortic valve stenosis**Disease models, animal**

Comparative electrocardiographic and myocardial blood flow effects of rapid atrial pacing and dipyridamole infusion in dogs with chronic coronary artery occlusion (Mirvis et al.). 1988;115:984-92

Early natural history of regional left ventricular dysfunction after experimental myocardial infarction (Mann et al.). 1988;115:538-46

The effects of acute ischemia on the isovolumic index (McGillem et al.). 1988;115:978-83

The effects of dopamine and dobutamine on regional function in the presence of rigid coronary stenoses and subcritical impairments of reactive hyperemia (McGillem et al.). 1988;115:970-7

Epicardial mapping of polymorphous ventricular tachycardias induced in the canine heart with procainamide (Murakawa et al.). 1988;115:1037-42

Fiberoptic angiography of cardiac chambers, valves, and great vessels using a guiding balloon catheter in dogs (Uchida et al.). 1988;115:1297-1302 (Prog. cardiol.)

Inadequate subendocardial oxygen delivery during perfluorocarbon perfusion in a canine model of ischemia (Christensen et al.). 1988;115:30-7

Increase in experimental infarct size with digoxin in a canine model of myocardial ischemia-reperfusion injury (Lynch et al.). 1988;115:1171-82

Reduction in digitalis-associated postinfarction mortality with nadolol in conscious dogs (Lynch et al.). 1988;115:67-76

Rheologic genesis of aortic coarctation in a canine model (Langdon et al.). 1988;115:489-92 (Editorial)

Dissecting aneurysm; see Aneurysm, dissecting**Dissection**

Coronary dissection: A predictor of restenosis? (Matthews et al.). 1988;115:547-54

Dobutamine

The effects of dopamine and dobutamine on regional function in the presence of rigid coronary stenoses and subcritical impairments of reactive hyperemia (McGillem et al.). 1988;115:970-7

Dopamine

The effects of dopamine and dobutamine on regional function in the presence of rigid coronary stenoses and subcritical impairments of reactive hyperemia (McGillem et al.). 1988;115:970-7

Intravenous fenoldopam in heart failure: comparing the hemodynamic effects of dopamine, receptor agonism with nitrupresside (Young et al.). 1988;115:378-84

Doppler echocardiography; see Echocardiography**Doppler ultrasound; see Ultrasonic diagnosis****Drug abuse; see Substance abuse****Ductus arteriosus, patent**

Doppler findings in nonimmune hydrops fetalis and cerebral arteriovenous malformation (Johnson et al.). 1988;115:1138-40 (Brief comm.)

Dystrophia myotonica; see Myotonia atrophica**E****Ebstein's anomaly**

Apical left ventricular diverticulum with Ebstein malformation (Bashour et al.). 1988;115:1332-4 (Brief comm.)

Echocardiography

Anomalous origin of the right coronary artery from the left sinus of Valsalva: echocardiographic-angiographic correlations (Kessler et al.). 1988;115:470-3 (Brief comm.)

Clinical significance of the echocardiographic degree of mitral valve prolapse (Labovitz et al.). 1988;115:842-9

Color flow Doppler assessment of aortic regurgitation complicated by aneurysmal dilation and dissection of the ascending aorta in the Marfan syndrome (Liu et al.). 1988;115:1118-9 (Brief comm.)

The contribution of color Doppler flow imaging to the assessment of a left ventricular thrombus (Maze et al.). 1988;115:479-82 (Brief comm.)

Detection of aortopulmonary window by pulsed and color Doppler echocardiography (Alboliras et al.). 1988;115:900-2 (Brief comm.)

Doppler echocardiographic assessment of the effect of varying atrioventricular delay and pacemaker mode on left ventricular filling (Pearson et al.). 1988;115:611-21

Doppler findings in nonimmune hydrops fetalis and cerebral arteriovenous malformation (Johnson et al.). 1988;115:1138-40 (Brief comm.)

Doppler puts pressure on our hemodynamic thinking (Allen et al.). 1988;115:1145-8 (Editorial)

Early natural history of regional left ventricular dysfunction after experimental myocardial infarction (Mann et al.). 1988;115:538-46

Early partial systolic closure of the pulmonic valve relates to severity of pulmonary hypertension (Turkevich et al.). 1988;115:409-18

Echocardiographic imaging of the left ventricle by peripheral intravenous injection of echo contrast agent (Berwing and Schlepper). 1988;115:399-408

Echocardiography and digital subtraction angiography in detection of mycotic false aneurysm complicating coarctation of the aorta (de Sá et al.). 1988;115:898-900 (Brief comm.)

Evaluation of balloon aortic valvuloplasty with transesophageal echocardiography (Cyran et al.). 1988;115:460-2 (Brief comm.)

Evaluation of Björk-Shiley prosthetic valves by real-time two-dimensional Doppler echocardiographic flow mapping (Dittrich et al.). 1988;115:133-8

Group A β -hemolytic streptococcal endocarditis precipitating rupture of sinus of Valsalva aneurysm: evaluation by two-dimensional, Doppler, and contrast echocardiography (Copper et al.). 1988;115:1132-4 (Brief comm.)

Improvement in regional wall motion after percutaneous transluminal coronary angioplasty during acute myocardial infarction: utility of two-dimensional echocardiography (Presti et al.). 1988;115:1149-55

Left ventricular pseudoaneurysm due to penetrating injury of the chest: an echocardiographic diagnosis (Matsumoto et al.). 1988;115:1134-6 (Brief comm.)

Localized septal hypertrophy: Part of the spectrum of hypertrophic cardiomyopathy or an incidental echocardiographic finding? (Belenkie et al.). 1988;115:385-90

Myocardial risk area and peak gray level measurement by contrast echocardiography: effect of microbubble size and concentration, injection rate, and coronary vasodilation (Vandenbergh et al.). 1988;115:733-9

One-year follow-up of cardiac and coronary artery disease in infants and children with Kawasaki disease (Chung et al.). 1988;115:1263-7

A practical application of Doppler echocardiography for the assessment of severity of aortic stenosis (Harrison et al.). 1988;115:622-8

Reproducibility of quantitative two-dimensional echocardiography (Himelman et al.). 1988;115:425-31

Ruptured aneurysm of sinus of Valsalva: recognition by Doppler color flow mapping (Chia et al.). 1988;115:686-8 (Brief comm.)

"Sand-drift" echoes and thrombus formation in the left atrium (Chiang et al.). 1988;115:908-11 (Brief comm.)

Segmental evaluation of left ventricular wall motion after myocardial infarction: magnetic resonance imaging versus echocardiography (White et al.). 1988;115:166-75 (Prog. cardiol.)

Submitral aneurysm diagnosed by left ventricular contrast echocardiography (Shah et al.). 1988;115:682-4 (Brief comm.)

Echocardiography—Cont'd

Two-dimensional color Doppler in discrete membranous subaortic stenosis (Friedman et al). 1988;115:688-91 (Brief comm.)
Two-dimensional echocardiographic imaging of left ventricular mural vegetations (Herzog et al). 1988;115:684-6 (Brief comm.)
Visualization of an anomalous left main coronary artery with two-dimensional echocardiography (Plehn et al). 1988;115:468-70 (Brief comm.)

Echotomography, computer; see Ultrasonic diagnosis

Ectopia cordis; see Heart defects, congenital

Ectopic atrial tachycardia; see Tachycardia, ectopic atrial

Ectopic thyroid

Ectopic thyroid remnants within the myocardium: an unusual case of right ventricular mass (Greco-Lucchina et al). 1988;115:195-8 (Brief comm.)

Editorials

Editorials. 1988;115:205-12; 489-98; 699-710; 924-36; 1141-8; 1353-68

Effort; see Exertion

Electric conductivity

Induction of partial alterations in atrioventricular conduction in dogs by percutaneous emission of high-frequency currents (López-Merino et al). 1988;115:1214-21

Electric countershock

Absence of significant postdefibrillation bradycardias in patients with automatic implantable defibrillators (Niazi et al). 1988;115:830-6

Initiation of a sustained ventricular arrhythmia resulting from R wave-synchronous AICD discharge (Gottlieb et al). 1988;115:915-7 (Brief comm.)

Sequential transvenous pacing and shock therapy for termination of sustained ventricular tachycardia (Calvo et al). 1988;115:569-75

When "sudden cardiac death" is not so sudden: lessons learned from the automatic implantable defibrillator (Guarnieri et al). 1988;115:205-7 (Editorial)

Electrocardiography

Association between extent of coronary artery disease and ventricular premature beat frequency after myocardial infarction (Minis et al). 1988;115:1198-1201

Comparative electrocardiographic and myocardial blood flow effects of rapid atrial pacing and dipyridamole infusion in dogs with chronic coronary artery occlusion (Mirvis et al). 1988;115:984-92

Correlation between the signal-averaged electrocardiogram and electrophysiologic study findings in patients with coronary artery disease and sustained ventricular tachycardia (Borbolla et al). 1988;115:816-24

Effect of pharmacologic therapy on angina frequency, ST segment depression during ambulatory ECG monitoring, and treadmill performance in patients with chronic stable mild angina (Kawanishi et al). 1988;115:220-7 (Symposium)

Electrocardiographic ST segment depression in coronary heart disease (Becker and Alpert). 1988;115:862-8 (Curriculum cardioli)

Identification of anatomically extensive coronary artery disease by the exercise ECG ST segment/heart rate slope (Okin et al). 1988;115:1002-13

Oral amiodarone loading therapy. I. The effect on serial signal-averaged electrocardiographic recordings and the QTc in patients with ventricular tachyarrhythmias (Borbolla and Denes). 1988;115:1202-8

Relationship of QRS scoring system to enzymatic and pathologic infarct size: the role of infarct location (Eisen et al). 1988;115:993-1001

Signal-averaged electrocardiograms in patients with atrial fibrillation or flutter (Engel et al). 1988;115:592-7

ST-T isointegral analysis of exercise stress body surface mapping for identifying ischemic areas in patients with angina pectoris (Nakajima et al). 1988;115:1013-21

Transient loss of R wave during percutaneous transluminal coronary angioplasty (Turgeman et al). 1988;115:1304-6 (Brief comm.)

Utility of the signal-averaged electrocardiogram in patients presenting with sustained ventricular tachycardia or fibrillation while on an antiarrhythmic drug (Nalos et al). 1988;115:108-14

Electrolyte imbalance; see Water-electrolyte imbalance

Electrophysiology

Acute and chronic effects of ketanserin on the electrophysiologic properties of isolated rabbit ventricular myocardium: particular reference to repolarization (Kamiya et al). 1988;115:1222-8

Correlation between the signal-averaged electrocardiogram and electrophysiologic study findings in patients with coronary artery disease and sustained ventricular tachycardia (Borbolla et al). 1988;115:816-24

Electrophysiologic effects of intravenous magnesium in patients with normal conduction systems and no clinical evidence of significant cardiac disease (Kulick et al). 1988;115:367-73

Emission computed tomography; see Tomography, emission computed

Emotional stress; see Stress, psychological

Endocarditis, bacterial

Bacterial endocarditis after percutaneous aortic valvuloplasty (Cujej et al). 1988;115:178-9 (Brief comm.)

Colonic villous adenoma, polyp, and leiomyoma presenting with *Streptococcus bovis* endocarditis (Ben-Haim et al). 1988;115:192-5 (Brief comm.)

Four-valve endocarditis with associated right ventricular mural vegetations (Lam et al). 1988;115:189-92 (Brief comm.)

Group A β -hemolytic streptococcal endocarditis precipitating rupture of sinus of Valsalva aneurysm: evaluation by two-dimensional, Doppler, and contrast echocardiography (Copper et al). 1988;115:1132-4 (Brief comm.)

Two-dimensional echocardiographic imaging of left ventricular mural vegetations (Herzog et al). 1988;115:684-6 (Brief comm.)

Enoximone

Central and regional hemodynamic effects of oral enoximone in congestive heart failure: a double-blind, placebo-controlled study (Leier et al). 1988;115:1051-9

Enzymes

Rapid enzyme release from acutely infarcted myocardium after early thrombolytic therapy: Washout or reperfusion damage? (van der Laarse et al). 1988;115:711-6

Erythroblastosis, fetal

Doppler findings in nonimmune hydrops fetalis and cerebral arteriovenous malformation (Johnson et al). 1988;115:1138-40 (Brief comm.)

Estrogens

Postmenopausal use of estrogen and occlusion of coronary arteries (Gruchow et al). 1988;115:954-63

Exercise; see Exertion

Exercise test

Acute myocardial infarction after normal maximal exercise test and reperfusion by emergency coronary angioplasty (Tuzcu et al). 1988;115:1124-7 (Brief comm.)

Comparative dosing and efficacy of continuous-release nifedipine versus standard nifedipine for angina pectoris: clinical response, exercise performance, and plasma nifedipine levels (Vetrovec et al). 1988;115:793-8

Effect of pharmacologic therapy on angina frequency, ST segment depression during ambulatory ECG monitoring, and treadmill performance in patients with chronic stable mild angina (Kawanishi et al). 1988;115:220-7 (Symposium)

Estimation of maximum oxygen uptake from clinical data: performance of the Specific Activity Scale (Lee et al). 1988;115:203-4 (Brief comm.)

Identification of anatomically extensive coronary artery disease by the exercise ECG ST segment/heart rate slope (Okin et al). 1988;115:1002-13

ST-T isointegral analysis of exercise stress body surface mapping for identifying ischemic areas in patients with angina pectoris (Nakajima et al). 1988;115:1013-21

Exertion

Changes in plasma lipids and apoproteins associated with physical training in middle-aged sedentary men (Hespel et al). 1988;115:786-92

Exercise and sudden cardiac death (Coplan et al). 1988;115:207-12 (Editorial)

Exercise-induced atrioventricular block: report of three cases (Peller et al). 1988;115:1315-7 (Brief comm.)

Exercise-induced hypotension as a manifestation of right ventricular ischemia (Rich et al). 1988;115:184-6 (Brief comm.)

Exertion—Cont'd

Influence of exercise on plasma atrial natriuretic factor levels in patients with myocardial infarction (Nishikimi et al.). 1988;115:753-60

Extracardiac left-to-right shunt

Biventricular free wall rupture with extracardiac left-to-right shunt after myocardial infarction (Pijls et al.). 1988;115:186-9 (Brief comm.)

Extracorporeal ventricular assist devices; see Heart assist devices**Extrasystole**

Association between extent of coronary artery disease and ventricular premature beat frequency after myocardial infarction (Minisi et al.). 1988;115:1198-1201

Clinical and hemodynamic characteristics of patients with inducible pulsus alternans (Schaefer et al.). 1988;115:1251-7

The extrasystolic mechanism as the entrainment of an oscillator (Schamroth et al.). 1988;115:1353-62 (Editorial)

F**Fainting; see Syncope****Fallot's tetralogy; see Tetralogy of Fallot****Fascicular block; see Bundle-branch block****Femoral artery, pathology**

Thrombolytic therapy for femoral artery thrombosis after pediatric cardiac catheterization (Ino et al.). 1988;115:633-9

Fenoldopam

Intravenous fenoldopam in heart failure: comparing the hemodynamic effects of dopamine, receptor agonism with nitroprusside (Young et al.). 1988;115:378-84

Fentanyl

Antifibrillatory action of the narcotic agonist fentanyl (Saini et al.). 1988;115:598-605

Fetus

Severe tricuspid regurgitation simulating pulmonary atresia in the fetus (Yeager et al.). 1988;115:906-8 (Brief comm.)

Fiber optics

Fiberoptic angiography of cardiac chambers, valves, and great vessels using a guiding balloon catheter in dogs (Uchida et al.). 1988;115:1297-1302 (Prog. cardiol.)

Fibrillation, ventricular; see Ventricular fibrillation**Fibrinolysis**

Impaired fibrinolysis in coronary artery disease (Francis et al.). 1988;115:776-80

Fibrinolytic agents

Combination of calcium channel blocker and thrombolytic therapy in acute myocardial infarction (Erbel et al.). 1988;115:529-38

Coronary angioplasty immediately after thrombolysis in 115 consecutive patients with acute myocardial infarction (Suryapranata et al.). 1988;115:519-29

Rapid enzyme release from acutely infarcted myocardium after early thrombolytic therapy: Washout or reperfusion damage? (van der Laarse et al.). 1988;115:711-6

Short-term infarct vessel patency with aspirin and dipyridamole started 24 to 36 hours after intravenous streptokinase (Hays et al.). 1988;115:717-21

Thrombolytic therapy for femoral artery thrombosis after pediatric cardiac catheterization (Ino et al.). 1988;115:633-9

Flecainide

Successful use of flecainide in atrial fibrillation with rapid ventricular rate in the Wolff-Parkinson-White syndrome (Crijns et al.). 1988;115:1317-21 (Brief comm.)

Floppy mitral valve; see Mitral valve prolapse**Fluid balance; see Water-electrolyte imbalance****Fluorocarbons**

Inadequate subendocardial oxygen delivery during perfluorocarbon perfusion in a canine model of ischemia (Christensen et al.). 1988;115:30-7

Fluoroscopy

Value of fluoroscopy in the detection of coronary stenosis: influence of age, sex, and number of vessels calcified on diagnostic efficacy (Uretsky et al.). 1988;115:323-33

Fluosol DA

Inadequate subendocardial oxygen delivery during perfluorocarbon perfusion in a canine model of ischemia (Christensen et al.). 1988;115:30-7

Fluosol DA—Cont'd

Preservation of left ventricular ejection fraction during percutaneous transluminal coronary angioplasty by distal transcatheter coronary perfusion of oxygenated Fluosol DA 20% (Jaffé et al.). 1988;115:1156-64

Fontan procedure

Hemodynamic responses to isolated increments in heart rate by atrial pacing after a Fontan procedure (Barber et al.). 1988;115:837-41

Foramen ovale, patent; see Heart septal defects, atrial**Foxglove; see Digitalis****Fungal aneurysm; see Aneurysm, infected****G****Gastrointestinal neoplasms**

Colonic villous adenoma, polyp, and leiomyoma presenting with *Streptococcus bovis* endocarditis (Ben-Haim et al.). 1988;115:192-5 (Brief comm.)

Glucose

The effects of antihypertensive drugs on glucose intolerance in hypertensive nondiabetics and diabetics (Houston). 1988;115:640-56 (Curriculum cardiol.)

Glycerol trinitrate

Combined effects of calcium antagonists and nitroglycerin on large coronary artery diameter (Schwartz and Bache). 1988;115:964-9

Effect of pharmacologic therapy on angina frequency, ST segment depression during ambulatory ECG monitoring, and treadmill performance in patients with chronic stable mild angina (Kawanishi et al.). 1988;115:220-7 (Symposium)

Effects of nitroglycerin and nifedipine on coronary and systemic hemodynamics during transient coronary artery occlusion (Kern et al.). 1988;115:1164-70

Granuloma

Bone wax granuloma causing saphenous vein graft thrombosis (Chun et al.). 1988;115:1310-3 (Brief comm.)

H**HDL cholesterol; see Lipoproteins, HDL cholesterol****Heart, blood supply**

Comparative electrocardiographic and myocardial blood flow effects of rapid atrial pacing and dipyridamole infusion in dogs with chronic coronary artery occlusion (Mirvis et al.). 1988;115:984-92

Heart abnormalities; see Heart defects, congenital**Heart aneurysm**

Atrial septal aneurysm herniation across the mitral valve orifice in pulmonary atresia (Casta). 1988;115:1136-8 (Brief comm.)

Heart arrest

Angiographic coronary morphology in survivors of cardiac arrest (Lo et al.). 1988;115:781-5

Heart atrium, physiopathology

Aortic and right atrial systolic pressures during cardiopulmonary resuscitation: a potential indicator of the mechanism of blood flow (Raessler et al.). 1988;115:1021-9

Atrial automatic ectopic tachycardia due to an atrial tumor (Ross et al.). 1988;115:606-10

"Sand-drift" echoes and thrombus formation in the left atrium (Chiang et al.). 1988;115:908-11 (Brief comm.)

Treatment of right atrial thrombus with urokinase (Goldhaber et al.). 1988;115:894-7 (Brief comm.)

Heart block

Exercise-induced atrioventricular block: report of three cases (Peller et al.). 1988;115:1315-7 (Brief comm.)

Prevalence and clinical correlates of non-Wenckebach, narrow-complex second-degree atrioventricular block detected by ambulatory ECG (Lange et al.). 1988;115:114-20

Resolution of complete heart block after right coronary artery angioplasty (Moreyra et al.). 1988;115:179-81 (Brief comm.)

Heart catheterization

Doppler puts pressure on our hemodynamic thinking (Allen et al.). 1988;115:1145-8 (Editorial)

Findings on routine right heart catheterization in patients with suspected coronary artery disease (Barron et al.). 1988;115:1193-8

Heart catheterization—Cont'd

Thrombolytic therapy for femoral artery thrombosis after pediatric cardiac catheterization (Ino et al). 1988;115:633-9

Heart conduction system

Comparative effects of adenosine triphosphate on accessory pathway and atrioventricular nodal conduction (Rinne et al). 1988;115:1042-7

Electrophysiologic effects of intravenous magnesium in patients with normal conduction systems and no clinical evidence of significant cardiac disease (Kulick et al). 1988;115:367-73

Induction of partial alterations in atrioventricular conduction in dogs by percutaneous emission of high-frequency currents (López-Merino et al). 1988;115:1214-21

Heart contractility; see Myocardial contraction

Heart defects, congenital

Anomalous origin of the right coronary artery from the left sinus of Valsalva: echocardiographic-angiographic correlations (Kessler, Feldman, et al). 1988;115:470-3 (Brief communication)

Apical left ventricular diverticulum with Ebstein malformation (Bashour et al). 1988;115:1332-4 (Brief comm.)

Balloon pulmonary valvuloplasty for congenital cyanotic heart defects (Rao and Brias). 1988;115:1105-10 (Prog. cardiol.)

Coronary angioplasty of multiple vessels in corrected transposition with situs inversus (DiSciascio et al). 1988;115:892-4 (Brief comm.)

Large pericardial effusions associated with congenital heart disease: five- and 8-year follow-up (Pietras and Lam). 1988;115:1334-6 (Brief comm.)

Single coronary artery in association with anomalous right ventricular muscle bundles (Blasetto et al). 1988;115:1122-4 (Brief comm.)

Visualization of an anomalous left main coronary artery with two-dimensional echocardiography (Plehn et al). 1988;115:468-70 (Brief comm.)

Heart disease, ischemic; see Coronary disease

Heart diseases; see also specific disease

Coronary angioplasty of multiple vessels in corrected transposition with situs inversus (DiSciascio et al). 1988;115:892-4 (Brief comm.)

Isolated coronary ostial stenosis in men (Tillman et al). 1988;115:1127-8 (Brief comm.)

Heart failure, congestive; see also Heart failure, congestive, drug therapy

Abnormal coronary hemodynamics and myocardial energetics in patients with chronic heart failure caused by ischemic heart disease and dilated cardiomyopathy (De Marco et al). 1988;115:809-15

Carcinoid heart disease presenting as right-to-left shunt and congestive heart failure: successful surgical treatment (Blick et al). 1988;115:201-3 (Brief comm.)

Cardiac failure and sudden death in the Framingham Study (Kannel et al). 1988;115:869-75 (Prog. cardiol.)

Human myocardial adenosine triphosphatase activities in health and heart failure (Unverferth et al). 1988;115:139-46

Inotropic response in CHF: myocarditis versus dilated cardiomyopathy (Meyer et al) (Letter). 1988;115:1346-8

Myocarditis presenting as acute myocardial infarction (Miklozek et al). 1988;115:768-76

Rapidly progressive heart failure resulting from cardiac sarcoidosis (Stewart et al). 1988;115:1324-6 (Brief comm.)

Heart failure, congestive, drug therapy

ACE inhibition for the failing heart: experience with captopril (Faxon). 1988;115:1085-93 (Curriculum cardiol.)

Atrial natriuretic peptide in congestive heart failure: postural changes and reset with chronic captopril therapy (Rouleau et al). 1988;115:1060-7

Central and regional hemodynamic effects of oral enoximone in congestive heart failure: a double-blind, placebo-controlled study (Leier et al). 1988;115:1051-9

Effect of the second-generation calcium channel blocker nisoldipine on left ventricular contractility in cardiac failure (Lewis et al). 1988;115:1238-44

Effects of atrial natriuretic factor on coronary hemodynamics and myocardial energetics in patients with heart failure (Herrmann et al). 1988;115:1232-8

Heart failure management, the impact of drug therapy on survival (Francis). 1988;115:699-702 (Editorial)

Heart failure, congestive, drug therapy—Cont'd

Intravenous fenoldopam in heart failure: comparing the hemodynamic effects of dopamine, receptor agonism with nitroprusside (Young et al). 1988;115:378-84

Preservation of the end-systolic pressure/end-systolic dimension relation following pindolol in congestive heart failure (Binkley et al). 1988;115:1245-50

Heart neoplasms

Angiosarcoma of the heart: three-year survival of follow-up by nuclear magnetic resonance imaging (Dichek et al). 1988;115:1323-4 (Brief comm.)

Atrial automatic ectopic tachycardia due to an atrial tumor (Ross et al). 1988;115:606-10

Carcinoid heart disease presenting as right-to-left shunt and congestive heart failure: successful surgical treatment (Blick et al). 1988;115:201-3 (Brief comm.)

Metastatic liposarcoma of the right ventricle with outflow tract obstruction: restrictive pathophysiology predicts poor surgical outcome (Bartels et al). 1988;115:696-8 (Brief comm.)

Pulmonary malignant fibrous histiocytoma of the left atrium with acute mitral regurgitation (Fukumitsu et al). 1988;115:691-3 (Brief comm.)

Right atrial angiosarcoma diagnosed by cardiac biopsy (Adachi et al). 1988;115:482-5 (Brief comm.)

Heart rate; see also Pulse

Effects of smoking on the heart and peripheral circulation (Trap-Jensen). 1988;115:263-7 (Symposium)

Hemodynamic responses to isolated increments in heart rate by atrial pacing after a Fontan procedure (Barber et al). 1988;115:837-41

Identification of anatomically extensive coronary artery disease by the exercise ECG ST segment/heart rate slope (Okin et al). 1988;115:1002-13

Heart rupture, post-infarction

Biventricular free wall rupture with extracardiac left-to-right shunt after myocardial infarction (Pijls et al). 1988;115:186-9 (Brief comm.)

Heart septal defects, atrial

Arrhythmias after repair of secundum atrial septal defect: the influence of surgical modification (Bink-Boekelens et al). 1988;115:629-33

Large pericardial effusions associated with congenital heart disease: five- and 8-year follow-up (Pietras and Lam). 1988;115:1334-6 (Brief comm.)

Heart septum; see also Heart septal defects, atrial

Atrial septal aneurysm herniation across the mitral valve orifice in pulmonary atresia (Casta). 1988;115:1136-8 (Brief comm.)

Atrioventricular canal with intact atrial septum (Rowley et al). 1988;115:902-6 (Brief comm.)

Coronary angioplasty of septal perforator (Trivedi et al). 1988;115:466-8 (Brief comm.)

Localized septal hypertrophy: Part of the spectrum of hypertrophic cardiomyopathy or an incidental echocardiographic finding? (Belenky et al). 1988;115:385-90

Heart sounds

Mitral stenosis: mitral dome excursion at M₁ and the mitral opening snap—the concept of reciprocal heart sounds (Barrington et al). 1988;115:1280-90 (Curriculum cardiol.)

Heart valve prostheses

Doppler evaluation of bioprosthetic and mechanical aortic valves: data from four models in 107 stable, ambulatory patients (Ramirez et al). 1988;115:418-25

Evaluation of Björk-Shiley prosthetic valves by real-time two-dimensional Doppler echocardiographic flow mapping (Dittrich et al). 1988;115:133-8

Late localized tamponade causing superior vena cava syndrome: an unusual complication of aortic valve replacement (Aebischer et al). 1988;115:1130-2 (Brief comm.)

Problems encountered with catheter balloon valvuloplasty of bioprosthetic aortic valves (McKay et al). 1988;115:463-5 (Brief comm.)

Systolic antegrade tricuspid blood flow—a sign of severe prosthetic valve stenosis (Rosenzweig et al). 1988;115:693-6 (Brief comm.)

Heart ventricle; see also Heart ventricle, abnormalities;

Heart ventricle, injury; Heart ventricle, physiology;

Heart ventricle, physiopathology

Echocardiographic imaging of the left ventricle by peripheral intravenous injection of echo contrast agent (Berwing and Schlepper). 1988;115:399-408

Heart ventricle, abnormalities

Apical left ventricular diverticulum with Ebstein malformation (Bashour et al). 1988;115:1332-4 (Brief comm.)
Critical analysis of cineangiographic criteria for diagnosis of arrhythmogenic right ventricular dysplasia (Daubert et al). 1988;115:448-59 (Prog. cardiol.)

Two-dimensional echocardiographic imaging of left ventricular mural vegetations (Herzog et al). 1988;115:684-6 (Brief comm.)

Heart ventricle, injury

Left ventricular pseudoaneurysm due to penetrating injury of the chest: an echocardiographic diagnosis (Matsumoto et al). 1988;115:1134-6 (Brief comm.)

Heart ventricle, physiology

Biochemical regulation of developed intraventricular systolic pressure (Wikman-Coffelt et al). 1988;115:876-91 (Prog. cardiol.)

Left ventricular diastolic function: evaluation by radionuclide angiography (Iskandrian et al). 1988;115:924-9 (Editorial)

Heart ventricle, physiopathology

Beta-blocker therapy in patients with ventricular tachyarrhythmias in the setting of left ventricular dysfunction (Brodsky et al). 1988;115:799-808

The contribution of color Doppler flow imaging to the assessment of a left ventricular thrombus (Maze et al). 1988;115:479-82 (Brief comm.)

Correlation between the signal-averaged electrocardiogram and electrophysiologic study findings in patients with coronary artery disease and sustained ventricular tachycardia (Borbo-la et al). 1988;115:816-24

Diastolic collapse of the left and right ventricles in cardiac tamponade (Conrad and Byrnes). 1988;115:475-8 (Brief comm.)

Early natural history of regional left ventricular dysfunction after experimental myocardial infarction (Mann et al). 1988;115:538-46

Effect of oral combination therapy with mexiletine and quinidine on left and right ventricular function (Sheldon et al). 1988;115:1030-6

Efficacy of intravenous amiodarone as short-term treatment for refractory ventricular tachycardia (Klein et al). 1988;115:96-101

Epicardial mapping of polymorphous ventricular tachycardias induced in the canine heart with procainamide (Murakawa et al). 1988;115:1037-42

Extracardiac causes of paradoxical motion of the left ventricular wall (D'Cruz and Kleinman). 1988;115:473-5 (Brief comm.)

Factors that determine the occurrence of reperfusion arrhythmias (Bolli and Patel). 1988;115:20-9

Hemodynamic recovery during simulated ventricular tachycardia: role of adrenergic receptor activation (Feldman et al). 1988;115:576-87

Intravenous lorcainide for symptomatic ventricular tachyarrhythmias: comparison with lidocaine and oral lorcainide (Hohnloser et al). 1988;115:824-30

"Irregular" ventricular parasytole: the influence of sinus rhythm on a parasytole focus (Oreto et al). 1988;115:121-33

Left ventricular dysfunction in excess of the size of infarction: a possible management strategy (Smucker et al). 1988;115:749-53

Metastatic liposarcoma of the right ventricle with outflow tract obstruction: restrictive pathophysiology predicts poor surgical outcome (Bartels et al). 1988;115:696-8 (Brief comm.)

Oral amiodarone loading therapy. I. The effect on serial signal-averaged electrocardiographic recordings and the QTc in patients with ventricular tachyarrhythmias (Borbola and Denes). 1988;115:1202-8

Pulsus alternans due to 2:1 ventriculoatrial conduction during ventricular tachycardia (Vacek et al). 1988;115:1313-5 (Brief comm.)

Segmental evaluation of left ventricular wall motion after myocardial infarction: magnetic resonance imaging versus echocardiography (White et al). 1988;115:166-75 (Prog. cardiol.)

Sequential transvenous pacing and shock therapy for termination of sustained ventricular tachycardia (Calvo et al). 1988;115:569-75

Heart ventricle, physiopathology—Cont'd

Sustained therapeutic efficacy and safety of oral propafenone for treatment of chronic ventricular arrhythmias: a 2-year experience (Dinh et al). 1988;115:92-6

Thromboxane synthetase inhibition reduces ventricular irritability after coronary occlusion and reperfusion (Austin et al). 1988;115:505-9

Utility of the signal-averaged electrocardiogram in patients presenting with sustained ventricular tachycardia or fibrillation while on an antiarrhythmic drug (Nalos et al). 1988;115:108-14

Ventricular tachycardia and sudden death in myotonic dystrophy (Hiromasa et al). 1988;115:914-5 (Brief comm.)

Heart-assist devices

Influence of an extracorporeal artificial ventricle on native ventricular performance (Binkley et al). 1988;115:1119-21 (Brief comm.)

Hemangiosarcoma

Angiosarcoma of the heart: three-year survival of follow-up by nuclear magnetic resonance imaging (Dichek et al). 1988;115:1323-4 (Brief comm.)

Right atrial angiosarcoma diagnosed by cardiac biopsy (Adachi et al). 1988;115:482-5 (Brief comm.)

Hemodynamics

Abnormal coronary hemodynamics and myocardial energetics in patients with chronic heart failure caused by ischemic heart disease and dilated cardiomyopathy (De Marco et al). 1988;115:809-15

Central and regional hemodynamic effects of oral enoximone in congestive heart failure: a double-blind, placebo-controlled study (Leier et al). 1988;115:1051-9

Clinical and hemodynamic characteristics of patients with inducible pulsus alternans (Schaefer et al). 1988;115:1251-7

Doppler puts pressure on our hemodynamic thinking (Allen et al). 1988;115:1145-8 (Editorial)

Effect of maintenance oral theophylline on dipyridamole thallium-201 myocardial imaging using SPECT and dipyridamole-induced hemodynamic changes (Daley et al). 1988;115:1185-92

The effects of acute ischemia on the isovolumic index (McGillem et al). 1988;115:978-83

Effects of atrial natriuretic factor on coronary hemodynamics and myocardial energetics in patients with heart failure (Herrmann et al). 1988;115:1232-8

Effects of nitroglycerin and nifedipine on coronary and systemic hemodynamics during transient coronary artery occlusion (Kern et al). 1988;115:1164-70

Hemodynamic responses to isolated increments in heart rate by atrial pacing after a Fontan procedure (Barber et al). 1988;115:837-41

Intravenous fenoldopam in heart failure: comparing the hemodynamic effects of dopamine receptor agonism with nitroprusside (Young et al). 1988;115:378-84

Plasma catecholamine levels in acute myocardial infarction: influence of beta-adrenergic blockade and relation to central hemodynamics (Murray et al). 1988;115:38-44

Hemostasis

Cigarette smoking and hemostatic function (FitzGerald et al). 1988;115:267-71 (Symposium)

Heparin

Decrease in frequency of anginal episodes by control of thrombin generation with low-dose heparin: a controlled cross-over randomized study (Neri Sereni et al). 1988;115:60-7

Short-term infarct vessel patency with aspirin and dipyridamole started 24 to 36 hours after intravenous streptokinase (Hays et al). 1988;115:717-21

Heparin acid; see Heparin**Hernopericardium; see Pericardial effusion****High blood pressure; see Hypertension****Histiocytoma**

Pulmonary malignant fibrous histiocytoma of the left atrium with acute mitral regurgitation (Fukumitsu et al). 1988;115:691-3 (Brief comm.)

Hydrops fetalis; see Erythroblastosis, fetal**Hydroxytyramine; see Dopamine****Hypercholesterolemia**

Strategies to reduce risk factors in hypertensive patients who smoke (Kaplan). 1988;115:288-94 (Symposium)

Hyperemia

The effects of dopamine and dobutamine on regional function in the presence of rigid coronary stenoses and subcritical impairments of reactive hyperemia (McGillem et al). 1988;115:970-7

Hypertension; see also Hypertension, drug therapy

Acute and chronic effects of ketanserin on the electrophysiologic properties of isolated rabbit ventricular myocardium: particular reference to repolarization (Kamiya et al). 1988;115:1222-8

Effects of smoking on the heart and peripheral circulation (Trap-Jensen). 1988;115:263-7 (Symposium)

Impact of smoking on heart attacks, strokes, blood pressure control, drug dose, and quality of life aspects in the International Prospective Primary Prevention Study in Hypertension (Buhler et al). 1988;115:282-8 (Symposium)

Long-term systemic hypertension in children after successful repair of coarctation of the aorta (Simsoo et al). 1988;115:1268-73

The Medical Research Council Hypertension Trial: the smoking patient (Dollery and Brennan). 1988;115:276-81 (Symposium)

Strategies to reduce risk factors in hypertensive patients who smoke (Kaplan). 1988;115:288-94 (Symposium)

Hypertension, drug therapy

The comparative effects of clonidine hydrochloride and nifedipine in the treatment of hypertensive crises (Houston). 1988;115:152-9 (Curriculum cardiol.)

The effects of antihypertensive drugs on glucose intolerance in hypertensive nondiabetics and diabetics (Houston). 1988;115:640-56 (Curriculum cardiol.)

Therapeutic trials and large arteries in hypertension (Safar). 1988;115:702-10 (Editorial)

Hypertension, pulmonary

Early partial systolic closure of the pulmonic valve relates to severity of pulmonary hypertension (Turkevich et al). 1988;115:409-18

Hypertension, therapy

Therapeutic trials and large arteries in hypertension (Safar). 1988;115:702-10 (Editorial)

Hypertrophic cardiomyopathy; see Cardiomyopathy, hypertrophic

Hypotension

Exercise-induced hypotension as a manifestation of right ventricular ischemia (Rich et al). 1988;115:184-6 (Brief comm.)

Haemodynamic recovery during simulated ventricular tachycardia: role of adrenergic receptor activation (Feldman et al). 1988;115:576-87

I

Idiopathic hypertrophic subvalvular stenosis; see Cardiomyopathy, hypertrophic

Iliac artery

Rotational atherectomy in atherosclerotic rabbit iliac arteries (Hansen et al). 1988;115:160-5 (Prog. cardiol.)

Iloprost

Reduction in infarct size by the prostacyclin analogue iloprost (ZK 36374) after experimental coronary artery occlusion-reperfusion (Chiariello et al). 1988;115:499-504

Imaging techniques; see Diagnostic imaging; specific technique

Indians, North American

Ischemic heart disease mortality in American Indians, United States, 1969-1971 and 1979-1981 (Gillum). 1988;115:1141-4 (Editorial)

Injuries; see Wounds and injuries

Inotropism, cardiac; see Myocardial contraction

Interferon, type I

Protective effect of recombinant alpha interferon on coxsackievirus B3 myocarditis in mice (Matsumori et al). 1988;115:1229-32

Intracranial arteriovenous malformations; see Cerebral arteriovenous malformations

Iproveratril; see Verapamil

Ischemic heart disease; see Coronary disease

Isovolumic index

The effects of acute ischemia on the isovolumic index (McGillem et al). 1988;115:978-83

K

Kawasaki disease; see Mucocutaneous lymph node syndrome

Ketanserin

Acute and chronic effects of ketanserin on the electrophysiologic properties of isolated rabbit ventricular myocardium: particular reference to repolarization (Kamiya et al). 1988;115:1222-8

Killer cells, natural, deficiency

Dilated cardiomyopathy associated with natural killer cell deficiency (Itagaki et al). 1988;115:1326-8 (Brief comm.)

Kinases; see Phosphotransferases, ATP

KO 1173; see Mexiletine

L

Left-to-right shunt

Biventricular free wall rupture with extracardiac left-to-right shunt after myocardial infarction (Pijls et al). 1988;115:186-9 (Brief comm.)

Leiomyoma

Colonic villous adenoma, polyp, and leiomyoma presenting with *Streptococcus bovis* endocarditis (Ben-Haim et al). 1988;115:192-5 (Brief comm.)

Letters

Atrial fibrillation and left atrial size (Zatuchni) (Letter); (Keren) (Reply). 1988;115:1339-40

Atrial natriuretic peptide in AMI (Lechleitner et al) (Letter); (Matsubara) (Reply). 1988;115:1341-2

Inotropic response in CHF: myocarditis versus dilated cardiomyopathy (Meyer et al). 1988;115:1346-8

LV mass and defibrillation threshold (Haberman et al) (Letter); (Chapman) (Reply). 1988;115:1340-1

Prophylactic anticoagulation for LV thrombi after AMI (Johannessen) (Letter); (Arvan) (Reply). 1988;115:1337-8

Pulmonary embolism death rates (Goldhaber). 1988;115:1342-3

Serum sickness from streptokinase (Dykewicz and Patterson) (Letter); (Rosenbaum) (Reply). 1988;115:1338-9

Torsades de pointes (Ovsyschker) (Letter); (Stratmann) (Reply). 1988;115:1342

Type A behavior (Scherwitz) (Letter); (Shekelle et al) (Letter); (Friedman) (Reply). 1988;115:1348-52

Variant angina and REM sleep (Otsuka et al). 1988;115:1343-6

Lidocaine

Intravenous lidocaine for symptomatic ventricular tachyarrhythmias: comparison with lidocaine and oral lidocaine (Hohnloser et al). 1988;115:824-30

Lignocaine; see Lidocaine

Lipids

Changes in plasma lipids and apoproteins associated with physical training in middle-aged sedentary men (Hespel et al). 1988;115:786-92

Lipoproteins

Changes in plasma lipids and apoproteins associated with physical training in middle-aged sedentary men (Hespel et al). 1988;115:786-92

Lipoproteins, HDL cholesterol

Lipid effects of smoking (Mjøs). 1988;115:272-5 (Symposium)

Liposarcoma

Metastatic liposarcoma of the right ventricle with outflow tract obstruction: restrictive pathophysiology predicts poor surgical outcome (Bartels et al). 1988;115:696-8 (Brief comm.)

Loracaine

Intravenous loracaine for symptomatic ventricular tachyarrhythmias: comparison with lidocaine and oral loracaine (Hohnloser et al). 1988;115:824-30

Lymph node syndrome, mucocutaneous; see Mucocutaneous lymph node syndrome

Lymphocytes

Lymphocytic pleural effusion in postpericardiotomy syndrome (Kim et al). 1988;115:1077-9

M**Magnesium sulfate**

Electrophysiologic effects of intravenous magnesium in patients with normal conduction systems and no clinical evidence of significant cardiac disease (Kulick et al). 1988;115:367-73

Magnetic resonance imaging

Angiosarcoma of the heart: three-year survival of follow-up by nuclear magnetic resonance imaging (Dichek et al). 1988;115:1323-4 (Brief comm.)

Estimation of the functional and anatomic extent of myocardial infarction using magnetic resonance imaging (White et al). 1988;115:740-8

MRI findings in a patient with pericardial mesothelioma (Gössinger et al). 1988;115:1321-2 (Brief comm.)

Segmental evaluation of left ventricular wall motion after myocardial infarction: magnetic resonance imaging versus echocardiography (White et al). 1988;115:166-75 (Prog. cardiol.)

Serial nuclear magnetic resonance imaging of acute myocardial infarction with and without reperfusion (Wisenberg et al). 1988;115:510-8

Marfan syndrome

Color flow Doppler assessment of aortic regurgitation complicated by aneurysmal dilation and dissection of the ascending aorta in the Marfan syndrome (Liu et al). 1988;115:1118-9 (Brief comm.)

Medical imaging; see Diagnostic imaging; specific technique**Mesothelioma**

MRI findings in a patient with pericardial mesothelioma (Gössinger et al). 1988;115:1321-2 (Brief comm.)

Mexitilene

Effect of oral combination therapy with mexiletine and quindine on left and right ventricular function (Sheldon et al). 1988;115:1030-6

Long-term efficacy of mexiletine alone and in combination with class Ia antiarrhythmic drugs for refractory ventricular arrhythmias (Whitford et al). 1988;115:360-6

Mitral click-murmur syndrome; see Mitral valve prolapse**Mitral regurgitation; see Mitral valve insufficiency****Mitral valve, surgery**

Coronary artery fistula after mitral valve surgery (Lee et al). 1988;115:1128-30 (Brief comm.)

Mitral valve insufficiency

Left ventricular function in ischemic mitral regurgitation—a precatheterization assessment (Breisblatt et al). 1988;115:77-82

Pulmonary malignant fibrous histiocytoma of the left atrium with acute mitral regurgitation (Fukumitsu et al). 1988;115:691-3 (Brief comm.)

Mitral valve prolapse

Clinical significance of the echocardiographic degree of mitral valve prolapse (Labovitz et al). 1988;115:842-9

Mitral valve stenosis

Mitral stenosis: mitral dome excursion at M₁ and the mitral opening snap—the concept of reciprocal heart sounds (Barrington, Boudoulas, et al). 1988;115:1280-90 (Curriculum in cardiol.)

Percutaneous transseptal balloon mitral valvuloplasty: the Chinese experience in 30 patients (Chen et al). 1988;115:937-47

Mortality

Incidence and case fatality rates of acute myocardial infarction (1975-1984): the Worcester Heart Attack Study (Goldberg et al). 1988;115:761-7

Ischemic heart disease mortality in American Indians, United States, 1969-1971 and 1979-1981 (Gillum). 1988;115:1141-4 (Editorial)

Reduction in digitalis-associated postinfarction mortality with nadolol in conscious dogs (Lynch et al). 1988;115:67-76 (Clin. invest.)

MR tomography; see Magnetic resonance imaging**Mucocutaneous lymph node syndrome**

One-year follow-up of cardiac and coronary artery disease in infants and children with Kawasaki disease (Chung et al). 1988;115:1263-7

Mycotic aneurysm; see Aneurysm, infected**Myocardial contraction**

Biochemical regulation of developed intraventricular systolic pressure (Wikman-Coffelt et al). 1988;115:876-91 (Prog. cardiol.)

Effect of the second-generation calcium channel blocker nisoldipine on left ventricular contractility in cardiac failure (Lewis et al). 1988;115:1238-44

Inotropic response in CHF: myocarditis versus dilated cardiomyopathy (Meyer et al) (Letter). 1988;115:1346-8

Preservation of the end-systolic pressure/end-systolic dimension relation following pindolol in congestive heart failure (Binkley et al). 1988;115:1245-50

Myocardial depressants; see Anti-arrhythmia agents**Myocardial infarction; see also Myocardial infarction, diagnosis; Myocardial infarction, drug therapy; Myocardial infarction, mortality; Myocardial infarction, physiopathology; Myocardial infarction, therapy**

Are 24 hours of ambulatory ECG monitoring necessary for a patient after infarction? (Davis et al). 1988;115:83-91

Biventricular free wall rupture with extracardiac left-to-right shunt after myocardial infarction (Pijls et al). 1988;115:186-9 (Brief comm.)

Current concepts in unstable myocardial ischemia (Bashour et al). 1988;115:850-61 (Curriculum cardiol.)

Development of post-traumatic coronary aneurysm: clinical implications (Wang et al). 1988;115:1306-7 (Brief comm.)

Electrocardiographic ST segment depression in coronary heart disease (Becker and Alpert). 1988;115:862-8 (Curriculum cardiol.)

Influence of exercise on plasma atrial natriuretic factor levels in patients with myocardial infarction (Nishikimi et al). 1988;115:753-60

Myocardial injury associated with polysubstance abuse (Lam and Goldschlager). 1988;115:675-80 (Brief comm.)

Myocardial infarction, diagnosis

Estimation of the functional and anatomic extent of myocardial infarction using magnetic resonance imaging (White et al). 1988;115:740-8

Myocardial risk area and peak gray level measurement by contrast echocardiography: effect of microbubble size and concentration, injection rate, and coronary vasodilation (Vandenberg et al). 1988;115:733-9

Myocarditis presenting as acute myocardial infarction (Mikolozek et al). 1988;115:768-76

Relationship of QRS scoring system to enzymatic and pathologic infarct size: the role of infarct location (Eisen et al). 1988;115:993-1001

Segmental evaluation of left ventricular wall motion after myocardial infarction: magnetic resonance imaging versus echocardiography (White et al). 1988;115:166-75 (Prog. cardiol.)

Serial nuclear magnetic resonance imaging of acute myocardial infarction with and without reperfusion (Wisenberg et al). 1988;115:510-8

Myocardial infarction, drug therapy

Combination of calcium channel blocker and thrombolytic therapy in acute myocardial infarction (Erbel et al). 1988;115:529-38

Increase in experimental infarct size with digoxin in a canine model of myocardial ischemia-reperfusion injury (Lynch et al). 1988;115:1171-82

Prophylaxis of post-myocardial infarction dysrhythmias by long-term timolol therapy (Ranganathan et al). 1988;115:340-50

Reduction in digitalis-associated postinfarction mortality with nadolol in conscious dogs (Lynch et al). 1988;115:67-76

Reduction in infarct size by the prostacyclin analogue iloprost (ZK 36374) after experimental coronary artery occlusion-reperfusion (Chiariello et al). 1988;115:499-504

Short-term infarct vessel patency with aspirin and dipryridamole started 24 to 36 hours after intravenous streptokinase (Hays et al). 1988;115:717-21

Myocardial infarction, mortality

Incidence and case fatality rates of acute myocardial infarction (1975-1984): the Worcester Heart Attack Study (Goldberg et al). 1988;115:761-7

Myocardial infarction, physiopathology

Association between extent of coronary artery disease and ventricular premature beat frequency after myocardial infarction (Minisi et al.). 1988;115:1198-1201

Early natural history of regional left ventricular dysfunction after experimental myocardial infarction (Mann et al.). 1988;115:538-46

Exclusive origin of both coronary arteries from a hypoplastic right ventricle complicating an extreme tetralogy of Fallot: lethal myocardial infarction following a palliative shunt (Garcia et al.). 1988;115:198-201 (Brief comm.)

Plasma catecholamine levels in acute myocardial infarction: influence of beta-adrenergic blockade and relation to central hemodynamics (Murray et al.). 1988;115:38-44

Rapid enzyme release from acutely infarcted myocardium after early thrombolytic therapy: Washout or reperfusion damage? (van der Laarse et al.). 1988;115:711-6

Myocardial infarction, therapy

Acute myocardial infarction after normal maximal exercise test and reperfusion by emergency coronary angioplasty (Tuzcu et al.). 1988;115:1124-7 (Brief comm.)

Coronary angioplasty immediately after thrombolysis in 115 consecutive patients with acute myocardial infarction (Suryapranata et al.). 1988;115:519-29

Improvement in regional wall motion after percutaneous transluminal coronary angioplasty during acute myocardial infarction: utility of two-dimensional echocardiography (Presti et al.). 1988;115:1149-55

Infarct vessel status after intravenous tissue plasminogen activator and acute coronary angioplasty: prediction of clinical outcome (Grines et al.). 1988;115:1-7

Left ventricular dysfunction in excess of the size of infarction: a possible management strategy (Smucker et al.). 1988;115:749-53

Recurrent ischemia in the zone of prior myocardial infarction: results of coronary angioplasty of the infarct-related artery (Hopkins et al.). 1988;115:14-9

Myocardial ischemia; see Coronary disease; Myocardial infarction

Myocardial perfusion imaging

New myocardial perfusion imaging agents: description and applications (Heo et al.). 1988;115:1111-7 (Prog. cardiol.)

Myocardial preinfarction syndrome; see Angina, unstable

Myocardial revascularization; see also Aortocoronary bypass

Assessment of myocardial oxidative stress in patients after myocardial revascularization (Ferreira et al.). 1988;115:307-12

Infarct vessel status after intravenous tissue plasminogen activator and acute coronary angioplasty: prediction of clinical outcome (Grines et al.). 1988;115:1-7

Myocardial rupture; see Heart rupture, post-infarction

Myocardiopathies; see Cardiomyopathy, congestive

Myocarditis

Cardiovascular effects of cocaine: an autopsy study of 40 patients (Virmani et al.). 1988;115:1068-76

Giant cell myocarditis: An autoimmune disease? (Humbert et al.). 1988;115:485-7 (Brief comm.)

Inotropic response in CHF: myocarditis versus dilated cardiomyopathy (Meyer et al.) (Letter). 1988;115:1346-8

Myocarditis presenting as acute myocardial infarction (Mikolozek et al.). 1988;115:768-76

Protective effect of recombinant alpha interferon on coxsackievirus B3 myocarditis in mice (Matsumori et al.). 1988;115:1229-32

Myocardium, anatomy

The functional anatomy of the human coronary sinus (Silver and Rowley). 1988;115:1080-4

Myocardium, drug effects

Acute and chronic effects of ketanserin on the electrophysiologic properties of isolated rabbit ventricular myocardium: particular reference to repolarization (Kamiya et al.). 1988;115:1222-8

Myocardial injury associated with polysubstance abuse (Lam and Goldschlager). 1988;115:675-80 (Brief comm.)

Myocardium, injury

Development of post-traumatic coronary aneurysm: clinical implications (Wang et al.). 1988;115:1306-7 (Brief comm.)

Myocardial injury associated with polysubstance abuse (Lam and Goldschlager). 1988;115:675-80 (Brief comm.)

Myocardium, physiology

Human myocardial adenosine triphosphatase activities in health and heart failure (Unverferth et al.). 1988;115:139-46

Myocardium, physiopathology

Biventricular free wall rupture with extracardiac left-to-right shunt after myocardial infarction (Pijls et al.). 1988;115:186-9 (Brief comm.)

Cardioprotective actions of nisoldipine in postreperfusion myocardial ischemia (Mentley et al.). 1988;115:948-54

Ectopic thyroid remnants within the myocardium: an unusual case of right ventricular mass (Greco-Lucchini et al.). 1988;115:195-8 (Brief comm.)

The effects of acute ischemia on the isovolumic index (McGillem et al.). 1988;115:978-83

Improvement in regional wall motion after percutaneous transluminal coronary angioplasty during acute myocardial infarction: utility of two-dimensional echocardiography (Presti et al.). 1988;115:1149-55

Myocardial preservation during ischemia and reperfusion (Ip and Levin). 1988;115:1094-1104 (Curriculum cardiol.)

ST-T isointegral analysis of exercise stress body surface mapping for identifying ischemic areas in patients with angina pectoris (Nakajima et al.). 1988;115:1013-21

Myosin

Biochemical regulation of developed intraventricular systolic pressure (Wikman-Coffelt et al.). 1988;115:876-91 (Prog. cardiol.)

Myosin ATPase; see Adenosine triphosphatase

Myotonia atrophica

Ventricular tachycardia and sudden death in myotonic dystrophy (Hiromasa et al.). 1988;115:914-5 (Brief comm.)

Myotonic dystrophy; see Myotonia atrophica

N

Nadolol

Reduction in digitalis-associated postinfarction mortality with nadolol in conscious dogs (Lynch et al.). 1988;115:67-76

Narcotics

Antifibrillatory action of the narcotic agonist fentanyl (Saini et al.). 1988;115:598-605

Natriuretic peptides, atrial

Atrial natriuretic peptide in congestive heart failure: postural changes and reset with chronic captopril therapy (Rouleau et al.). 1988;115:1060-7

Effects of atrial natriuretic factor on coronary hemodynamics and myocardial energetics in patients with heart failure (Herrmann et al.). 1988;115:1232-8

Influence of exercise on plasma atrial natriuretic factor levels in patients with myocardial infarction (Nishikimi et al.). 1988;115:753-60

Natural killer cell deficiency; see Killer cells, natural, deficiency

Nifedipine

Combination of calcium channel blocker and thrombolytic therapy in acute myocardial infarction (Erbel et al.). 1988;115:529-38

Combined effects of calcium antagonists and nitroglycerin on large coronary artery diameter (Schwartz and Bache). 1988;115:964-9

Comparative dosing and efficacy of continuous-release nifedipine versus standard nifedipine for angina pectoris: clinical response, exercise performance, and plasma nifedipine levels (Vetrovec et al.). 1988;115:793-8

The comparative effects of clonidine hydrochloride and nifedipine in the treatment of hypertensive crises (Houston). 1988;115:152-9 (Curriculum cardiol.)

Effects of nitroglycerin and nifedipine on coronary and systemic hemodynamics during transient coronary artery occlusion (Kern et al.). 1988;115:1164-70

Total ischemic burden: effect of vasoactive agents (Cohn). 1988;115:215-9 (Symposium)

The total vascular burden, peripheral and coronary: vasodilator effects of nifedipine (Opie and Commerford). 1988;115:228-38 (Symposium)

Nisoldipine

Cardioprotective actions of nisoldipine in postreperfusion myocardial ischemia (Mentley et al.). 1988;115:948-54

Nisoldipine—Cont'd

Effect of the second-generation calcium channel blocker nisoldipine on left ventricular contractility in cardiac failure (Lewis et al). 1988;115:1238-44

Nitrates

Total ischemic burden: effect of vasoactive agents (Cohn). 1988;115:215-9 (Symposium)

Nitroferricyanide; see Nitroprusside**Nitroglycerin; see Glycerol trinitrate****Nitroprusside**

Intravenous fenoldopam in heart failure: comparing the hemodynamic effects of dopamine, receptor agonism with nitroprusside (Young et al). 1988;115:378-84

NMR imaging; see Magnetic resonance imaging**Nuclear magnetic resonance; see Magnetic resonance imaging****O****Obesity**

Sucrose, coronary heart disease, diabetes, and obesity: Do hormones provide a link? (Yudkin). 1988;115:493-8 (Editorial)

Opiates; see Narcotics**Oscillometry**

The extrasystolic mechanism as the entrainment of an oscillator (Schamroth et al). 1988;115:1363-8 (Editorial)

Osmoregulation; see Water-electrolyte imbalance**Oxrenoprol**

Impact of smoking on heart attacks, strokes, blood pressure control, drug dose, and quality of life aspects in the International Prospective Primary Prevention Study in Hypertension (Bühler et al). 1988;115:282-8 (Symposium)

Oxygen

Estimation of maximum oxygen uptake from clinical data: performance of the Specific Activity Scale (Lee et al). 1988;115:203-4 (Brief comm.)

Inadequate subendocardial oxygen delivery during perfluorocarbon perfusion in a canine model of ischemia (Christensen et al). 1988;115:30-7

P**Pacemaker, artificial; see also Cardiac pacing, artificial**

All dual-chamber pacemakers function in the DDD mode (Barold et al). 1988;115:1353-62 (Editorial)

Doppler echocardiographic assessment of the effect of varying atrioventricular delay and pacemaker mode on left ventricular filling (Pearson et al). 1988;115:611-21

Exercise-induced atrioventricular block: report of three cases (Peller et al). 1988;115:1315-7 (Brief comm.)

Hemodynamic responses to isolated increments in heart rate by atrial pacing after a Fontan procedure (Barber et al). 1988;115:837-41

Pacemaker, artificial, adverse effects

Comparison of lead dislodgment and pocket infection rates after pacemaker implantation in the operating room versus the catheterization laboratory (Miller et al). 1988;115:1048-51

Pacemaker syndrome due to retrograde conduction in a DDI pacemaker (Cunningham). 1988;115:478-9 (Brief comm.)

Pacing, cardiac, artificial; see Cardiac pacing, artificial**Palliative treatment**

Balloon pulmonary valvotomy: palliation for cyanotic heart disease (Boucek et al). 1988;115:318-22

Parasytole

"Irregular" ventricular parasytole: the influence of sinus rhythm on a parasytole focus (Oreto et al). 1988;115:121-33

Patent ductus arteriosus; see Ductus arteriosus, patent**Pediatrics**

Long-term systemic hypertension in children after successful repair of coarctation of the aorta (Simsolo et al). 1988;115:1268-73

Percutaneous transluminal angioplasty; see Angioplasty, transluminal**Percutaneous transseptal balloon valvuloplasty; see Balloon dilatation****Perfluorocarbons; see Fluorocarbons****Perfusion**

Acute myocardial infarction after normal maximal exercise test and reperfusion by emergency coronary angioplasty (Tuzcu et al). 1988;115:1124-7 (Brief comm.)

Delayed myocardial ischemia following the cessation of sympathetic stimulation (Hagestad and Verrier). 1988;115:45-53

Factors that determine the occurrence of reperfusion arrhythmias (Bolli and Patel). 1988;115:20-9

Inadequate subendocardial oxygen delivery during perfluorocarbon perfusion in a canine model of ischemia (Christensen et al). 1988;115:30-7

Myocardial preservation during ischemia and reperfusion (Ip and Levin). 1988;115:1094-1104 (Curriculum cardiol.)

New myocardial perfusion imaging agents: description and applications (Heo et al). 1988;115:1111-7 (Prog. cardiol.)

Preservation of left ventricular ejection fraction during percutaneous transluminal coronary angioplasty by distal transcatheter coronary perfusion of oxygenated Fluosol DA 20% (Jaffe et al). 1988;115:1156-64

Rapid enzyme release from acutely infarcted myocardium after early thrombolytic therapy: Washout or reperfusion damage? (van der Laarse et al). 1988;115:711-6

Reduction in infarct size by the prostacyclin analogue iloprost (ZK 36374) after experimental coronary artery occlusion-reperfusion (Chiariello et al). 1988;115:499-504

Serial nuclear magnetic resonance imaging of acute myocardial infarction with and without reperfusion (Wisenberg et al). 1988;115:510-8

Thromboxane synthetase inhibition reduces ventricular irritability after coronary occlusion and reperfusion (Austin et al). 1988;115:505-9

Pericardial effusion

Large pericardial effusions associated with congenital heart disease: five- and 8-year follow-up (Pietras and Lam). 1988;115:1334-6 (Brief comm.)

Pericardial mesothelioma; see Mesothelioma**Phentanyl; see Fentanyl****Phosphodiesterase inhibitors**

Central and regional hemodynamic effects of oral enoximone in congestive heart failure: a double-blind, placebo-controlled study (Leier et al). 1988;115:1051-9

Phosphorylation

Biochemical regulation of developed intraventricular systolic pressure (Wikman-Coffelt et al). 1988;115:876-91 (Prog. cardiol.)

Phosphotransferases, ATP

Biochemical regulation of developed intraventricular systolic pressure (Wikman-Coffelt et al). 1988;115:876-91 (Prog. cardiol.)

Physical education and training

Changes in plasma lipids and apoproteins associated with physical training in middle-aged sedentary men (Hespel et al). 1988;115:786-92

Physical effort; see Exertion**Physical endurance**

Changes in plasma lipids and apoproteins associated with physical training in middle-aged sedentary men (Hespel et al). 1988;115:786-92

Pindolol

Preservation of the end-systolic pressure/end-systolic dimension relation following pindolol in congestive heart failure (Binkley et al). 1988;115:1245-50

Plasminogen activator, tissue type

Infarct vessel status after intravenous tissue plasminogen activator and acute coronary angioplasty: prediction of clinical outcome (Grines et al). 1988;115:1-7

Platelets; see Blood platelets**Pleural effusion**

Lymphocytic pleural effusion in postpericardiotomy syndrome (Kim et al). 1988;115:1077-9

Post-infarction heart rupture; see Heart rupture, post-infarction**Postpericardiotomy syndrome**

Lymphocytic pleural effusion in postpericardiotomy syndrome (Kim et al). 1988;115:1077-9

Pregnancy

Beta-adrenergic blockers in pregnancy (Frishman and Chesser). 1988;115:147-52 (Curriculum cardiol.)

Premature beat; see Extrasystole

Prindolol; see Pindolol

Procainamide

Epicardial mapping of polymorphous ventricular tachycardias induced in the canine heart with procainamide (Murakawa et al.). 1988;115:1037-42

Progress in cardiology

Progress in cardiology. 1988;115:160-75; 444-59; 657-71; 869-91; 1105-17; 1291-1302

Propafenone

Propafenone: a new antiarrhythmic agent (Somberg et al.). 1988;115:1274-9 (Curriculum cardiol.)

Sustained therapeutic efficacy and safety of oral propafenone for treatment of chronic ventricular arrhythmias: a 2-year experience (Dinh et al.). 1988;115:92-6

Propranolol

Impact of smoking on heart attacks, strokes, blood pressure control, drug dose, and quality of life aspects in the International Prospective Primary Prevention Study in Hypertension (Buhler et al.). 1988;115:282-8 (Symposium)

Prostacyclin analogues; see Prostaglandins, synthetic

Prostaglandins, synthetic

Reduction in infarct size by the prostacyclin analogue iloprost (ZK 36374) after experimental coronary artery occlusion-reperfusion (Chiariello et al.). 1988;115:499-504

Prosthetic valves; see Heart valve prosthesis

Pseudoaneurysm

Echocardiography and digital subtraction angiography in detection of mycotic false aneurysm complicating coarctation of the aorta (de Sa et al.). 1988;115:898-900 (Brief comm.)

Left ventricular pseudoaneurysm due to penetrating injury of the chest: an echocardiographic diagnosis (Matsumoto et al.). 1988;115:1134-6 (Brief comm.)

Psychological stress; see Stress, psychological

Pulmonary artery, physiopathology

Severe tricuspid regurgitation simulating pulmonary atresia in the fetus (Yeager et al.). 1988;115:906-8 (Brief comm.)

Pulmonary atresia

Atrial septal aneurysm herniation across the mitral valve orifice in pulmonary atresia (Casta). 1988;115:1136-8 (Brief comm.)

Severe tricuspid regurgitation simulating pulmonary atresia in the fetus (Yeager et al.). 1988;115:906-8 (Brief comm.)

Pulmonary embolism

Treatment of right atrial thrombus with urokinase (Goldhaber et al.). 1988;115:894-7 (Brief comm.)

Pulmonary hypertension; see Hypertension, pulmonary

Pulmonary stenosis; see Pulmonary valve stenosis

Pulmonary valve

Early partial systolic closure of the pulmonic valve relates to severity of pulmonary hypertension (Turkevich et al.). 1988;115:409-18

Pulmonary valve stenosis

Balloon pulmonary valvotomy: palliation for cyanotic heart disease (Boucek et al.). 1988;115:318-22

Balloon pulmonary valvuloplasty for congenital cyanotic heart defects (Rao and Brias). 1988;115:1105-10 (Prog. cardiol.)

Long-term results of balloon pulmonary valvuloplasty of valvar pulmonic stenosis (Rao et al.). 1988;115:1291-6 (Prog. cardiol.)

Single coronary artery in association with anomalous right ventricular muscle bundles (Blasetto et al.). 1988;115:1122-4 (Brief comm.)

Pulse; see also Heart rate

Clinical and hemodynamic characteristics of patients with inducible pulsus alternans (Schaefer et al.). 1988;115:1251-7

Pulsus alternans due to 2:1 ventriculoatrial conduction during ventricular tachycardia (Vacek et al.). 1988;115:1313-5 (Brief comm.)

Pulsus paradoxus: definition and relation to the severity of cardiac tamponade (Curtiss et al.). 1988;115:391-8

Q

Quality of life

Impact of smoking on heart attacks, strokes, blood pressure control, drug dose, and quality of life aspects in the International Prospective Primary Prevention Study in Hypertension (Buhler et al.). 1988;115:282-8 (Symposium)

Quinidine

Effect of oral combination therapy with mexiletine and quinidine on left and right ventricular function (Sheldon et al.). 1988;115:1030-6

R

Radioisotope angiography; see Radionuclide angiography

Radionuclide angiography

Left ventricular diastolic function: evaluation by radionuclide angiography (Iskandrian et al.). 1988;115:924-9 (Editorial)

Radionuclide imaging

Effect of maintenance oral theophylline on dipyridamole thallium-201 myocardial imaging using SPECT and dipyridamole-induced hemodynamic changes (Daley et al.). 1988;115:1185-92

New myocardial perfusion imaging agents: description and applications (Heo et al.). 1988;115:1111-7 (Prog. cardiol.)

Radionuclide tomography, computed; see Tomography, emission computed

Radiopaque media; see Contrast media

Receptors, adrenergic

Hemodynamic recovery during simulated ventricular tachycardia: role of adrenergic receptor activation (Feldman et al.). 1988;115:576-87

Regurgitation, aortic valve; see Aortic valve insufficiency

Reperfusion; see Perfusion

Resuscitation

Aortic and right atrial systolic pressures during cardiopulmonary resuscitation: a potential indicator of the mechanism of blood flow (Raessler et al.). 1988;115:1021-9

Revascularization, myocardial; see Myocardial revascularization

Risk factors

Opening remarks: the need to manage risk factors of coronary heart disease (Mancia). 1988;115:240-2 (Symposium)

Strategies to reduce risk factors in hypertensive patients who smoke (Kaplan). 1988;115:288-94 (Symposium)

S

Saphenous vein, physiopathology

Bone wax granuloma causing saphenous vein graft thrombosis (Chun et al.). 1988;115:1310-3 (Brief comm.)

Sarcoidosis

Rapidly progressive heart failure resulting from cardiac sarcoidosis (Stewart et al.). 1988;115:1324-6 (Brief comm.)

Scanning, radioisotope; see Radionuclide imaging

Scintigraphy, computed tomography; see Tomography, emission computed

Septal hypertrophy; see Cardiomyopathy, hypertrophic

Sinus of Valsalva

Anomalous origin of the right coronary artery from the left sinus of Valsalva: echocardiographic-angiographic correlations (Kessler et al.). 1988;115:470-3 (Brief comm.)

Group A β -hemolytic streptococcal endocarditis precipitating rupture of sinus of Valsalva aneurysm: evaluation by two-dimensional, Doppler, and contrast echocardiography (Cooper et al.). 1988;115:1132-4 (Brief comm.)

Ruptured aneurysm of sinus of Valsalva: recognition by Doppler color flow mapping (Chia et al.). 1988;115:686-8 (Brief comm.)

Visualization of an anomalous left main coronary artery with two-dimensional echocardiography (Plehn et al.). 1988;115:468-70 (Brief comm.)

Sinus thrombosis

Paradoxical increase of ventricular fibrillation threshold in response to coronary sinus obstruction (Kralios et al.). 1988;115:334-40

Situs inversus

Coronary angioplasty of multiple vessels in corrected transposition with situs inversus (DiSciascio et al.). 1988;115:892-4 (Brief comm.)

Smoking

The cardiovascular pathology of smoking (McGill). 1988;115:250-7 (Symposium)

Smoking—Cont'd

Cigarette smoking and hemostatic function (FitzGerald et al). 1988;115:267-71 (Symposium)
 Coronary heart disease: epidemiology of smoking and intervention studies of smoking (Wilhelmsen). 1988;115:242-9 (Symposium)
 Effects of smoking on the heart and peripheral circulation (Trap-Jensen). 1988;115:263-7 (Symposium)
 Impact of smoking on heart attacks, strokes, blood pressure control, drug dose, and quality of life aspects in the International Prospective Primary Prevention Study in Hypertension (Bühler et al). 1988;115:282-8 (Symposium)
 Lipid effects of smoking (Maje). 1988;115:272-5 (Symposium)
 The Medical Research Council Hypertension Trial: the smoking patient (Dollery and Brennan). 1988;115:276-81 (Symposium)
 Smoking and mechanisms of cardiovascular control (Robertson et al). 1988;115:258-63 (Symposium)
 Strategies to reduce risk factors in hypertensive patients who smoke (Kaplan). 1988;115:288-94 (Symposium)

Sodium nitroprusside; see Nitroprusside**Spectroscopy, magnetic resonance; see Magnetic resonance imaging****Staphylococcus aureus**

Echocardiography and digital subtraction angiography in detection of mycotic false aneurysm complicating coarctation of the aorta (de Sá et al). 1988;115:898-900 (Brief comm.)
Stenocardia; see Angina pectoris
Streptococcus

Colonic villous adenoma, polyp, and leiomyoma presenting with *Streptococcus bovis* endocarditis (Ben-Haim et al). 1988;115:192-5 (Brief comm.)

Group A β -hemolytic streptococcal endocarditis precipitating rupture of sinus of Valsalva aneurysm: evaluation by two-dimensional, Doppler, and contrast echocardiography (Copper et al). 1988;115:1132-4 (Brief comm.)

Stress, psychological

Delayed myocardial ischemia following the cessation of sympathetic stimulation (Hagestad and Verrier). 1988;115:45-53

Stroke; see Cerebrovascular disorders**Stroke volume**

Preservation of left ventricular ejection fraction during percutaneous transluminal coronary angioplasty by distal transcatheter coronary perfusion of oxygenated Fluosol DA 20% (Jaffe et al). 1988;115:1156-64

Substance abuse

Cardiovascular effects of cocaine: an autopsy study of 40 patients (Virmani et al). 1988;115:1068-76

Myocardial injury associated with polysubstance abuse (Lam and Goldschlager). 1988;115:675-80 (Brief comm.)

Subvalvular stenosis, idiopathic hypertrophic; see Cardiomyopathy, hypertrophic**Sucrose**

Sucrose, coronary heart disease, diabetes, and obesity: Do hormones provide a link? (Yudkin). 1988;115:493-8 (Editorial)

Sudden death; see Death, sudden**Superior vena cava syndrome**

Late localized tamponade causing superior vena cava syndrome: an unusual complication of aortic valve replacement (Aebischer et al). 1988;115:1130-2 (Brief comm.)

Superior vena cava syndrome treated by percutaneous transluminal balloon angioplasty (Walpole et al). 1988;115:1303-4 (Brief comm.)

Sympathetic nervous system

Delayed myocardial ischemia following the cessation of sympathetic stimulation (Hagestad and Verrier). 1988;115:45-53

Sympathins; see Catecholamines**Syncope**

Spontaneous reversion of ventricular fibrillation (Patt et al). 1988;115:919-23 (Brief comm.)

Systole

Clinical and hemodynamic characteristics of patients with inducible pulsus alternans (Schaefer et al). 1988;115:1251-7
 Left ventricular systolic and diastolic function after two-stage anatomic correction of transposition of the great arteries (Sandor et al). 1988;115:1257-62

Preservation of the end-systolic pressure/end-systolic dimension relation following pindolol in congestive heart failure (Binkley et al). 1988;115:1245-50

Systolic click-murmur syndrome; see Mitral valve prolapse**T****Tachyarrhythmia; see Arrhythmia****Tachycardia; see also Tachycardia, atrioventricular nodal reentry; Tachycardia, drug therapy; Tachycardia, ectopic atrial**

Absence of significant postdefibrillation bradycardias in patients with automatic implantable defibrillators (Niazi et al). 1988;115:830-6

Changes in cycle length at the onset of sustained tachycardias—importance for antitachycardiac pacing (Geibel et al). 1988;115:588-92

Correlation between the signal-averaged electrocardiogram and electrophysiologic study findings in patients with coronary artery disease and sustained ventricular tachycardia (Borboleta et al). 1988;115:816-24

Epicardial mapping of polymorphous ventricular tachycardias induced in the canine heart with procainamide (Murakawa et al). 1988;115:1037-42

Hemodynamic recovery during simulated ventricular tachycardia: role of adrenergic receptor activation (Feldman et al). 1988;115:576-87

Multifocal atrial tachycardia from electrolyte imbalance (Strickberger et al). 1988;115:680-2 (Brief comm.)

Pulsus alternans due to 2:1 ventriculoatrial conduction during ventricular tachycardia (Vacek et al). 1988;115:1313-5 (Brief comm.)

Sequential transvenous pacing and shock therapy for termination of sustained ventricular tachycardia (Calvo et al). 1988;115:569-75

Spontaneous conversion of atrial flutter to antidromic atrioventricular reciprocating tachycardia in the Wolff-Parkinson-White syndrome (Huycke et al). 1988;115:917-9 (Brief comm.)

Utility of the signal-averaged electrocardiogram in patients presenting with sustained ventricular tachycardia or fibrillation while on an antiarrhythmic drug (Nalos et al). 1988;115:108-14

Ventricular tachycardia and sudden death in myotonic dystrophy (Hiromasa et al). 1988;115:914-5 (Brief comm.)

Tachycardia, atrioventricular nodal reentry

Changes in cycle length at the onset of sustained tachycardias—importance for antitachycardiac pacing (Geibel et al). 1988;115:588-92

Comparative effects of adenosine triphosphate on accessory pathway and atrioventricular nodal conduction (Rinne et al). 1988;115:1042-7

Tachycardia, drug therapy

Effect of oral combination therapy with mexiletine and quinidine on left and right ventricular function (Sheldon et al). 1988;115:1030-6

Efficacy of intravenous amiodarone as short-term treatment for refractory ventricular tachycardia (Klein et al). 1988;115:96-101

Intravenous lorcaïnide for symptomatic ventricular tachycardias: comparison with lidocaine and oral lorcaïnide (Hohnloser et al). 1988;115:824-30

Tachycardia, ectopic atrial

Atrial automatic ectopic tachycardia due to an atrial tumor (Ross et al). 1988;115:606-10

Technetium

New myocardial perfusion imaging agents: description and applications (Heo et al). 1988;115:1111-7 (Prog. cardiol.)

Tetralogy of Fallot

Balloon pulmonary valvotomy: palliation for cyanotic heart disease (Boucek et al). 1988;115:318-22

Exclusive origin of both coronary arteries from a hypoplastic right ventricle complicating an extreme tetralogy of Fallot: lethal myocardial infarction following a palliative shunt (Garcia et al). 1988;115:198-201 (Brief comm.)

Thallium radioisotopes

Effect of maintenance oral theophylline on dipyridamole thallium-201 myocardial imaging using SPECT and dipyridamole-induced hemodynamic changes (Daley et al). 1988;115:1185-92

Thallium radioisotopes—Cont'd

New myocardial perfusion imaging agents: description and applications (Heo et al). 1988;115:1111-7 (Prog. cardiol.)

Theophylline

Effect of maintenance oral theophylline on dipyridamole thallium-201 myocardial imaging using SPECT and dipyridamole-induced hemodynamic changes (Daley et al). 1988; 115:1185-92

Thorax, injuries

Development of post-traumatic coronary aneurysm: clinical implications (Wang et al). 1988;115:1306-7 (Brief comm.)

Left ventricular pseudoaneurysm due to penetrating injury of the chest: an echocardiographic diagnosis (Matsumoto et al). 1988;115:1134-6 (Brief comm.)

Thrombase; see Thrombin

Thrombin

Decrease in frequency of anginal episodes by control of thrombin generation with low-dose heparin: a controlled cross-over randomized study (Neri Serneri et al). 1988;115:60-7

Thrombocytes; see Blood platelets

Thrombolysis; see Fibrinolysis

Thrombolytic agents; see Fibrinolytic agents

Thrombosis

Bone war granuloma causing saphenous vein graft thrombosis (Chun et al). 1988;115:1310-3 (Brief comm.)

Treatment of right atrial thrombus with urokinase (Goldhaber et al). 1988;115:894-7 (Brief comm.)

Thrombosis, coronary; see Coronary thrombosis

Thromboxane synthetase

Thromboxane synthetase inhibition reduces ventricular irritability after coronary occlusion and reperfusion (Austin et al). 1988;115:505-9

Thrombus

"Sand-drift" echoes and thrombus formation in the left atrium (Chiang et al). 1988;115:908-11 (Brief comm.)

Thyroid gland

Ectopic thyroid remnants within the myocardium: an unusual case of right ventricular mass (Greco-Lucchina et al). 1988;115:195-8 (Brief comm.)

Timolol

Prophylaxis of post-myocardial infarction dysrhythmias by long-term timolol therapy (Ranganathan et al). 1988; 115:340-50

Tissue-type plasminogen activator; see Plasminogen activator, tissue-type

Tomography, emission computed

Effect of maintenance oral theophylline on dipyridamole thallium-201 myocardial imaging using SPECT and dipyridamole-induced hemodynamic changes (Daley et al). 1988; 115:1185-92

Tomography, NMR; see Magnetic resonance imaging

Tomography, ultrasonic; see Ultrasonic diagnosis

Tomography, x-ray computed

Preliminary experience in the use of ultrafast computed tomography to diagnose aortic valve stenosis (MacMillan et al). 1988;115:665-71 (Prog. cardiol.)

Torsade de pointes; see Tachycardia

Transluminal angioplasty; see Angioplasty, transluminal

Transposition of great vessels

Coronary angioplasty of multiple vessels in corrected transposition with situs inversus (DiSciascio et al). 1988;115:892-4 (Brief comm.)

Left ventricular systolic and diastolic function after two-stage anatomic correction of transposition of the great arteries (Sandor et al). 1988;115:1257-62

Transseptal balloon valvuloplasty; see Balloon dilatation

Transvenous pacing; see Cardiac pacing, artificial

Trauma; see Wounds and injuries

Tricuspid valve insufficiency

Severe tricuspid regurgitation simulating pulmonary atresia in the fetus (Yeager et al). 1988;115:906-8 (Brief comm.)

Tricuspid valve stenosis

Systolic antegrade tricuspid blood flow—a sign of severe prosthetic valve stenosis (Rosenzweig et al). 1988;115:693-6 (Brief comm.)

Type A personality

Type A behavior: a frequently misdiagnosed and rarely treated medical disorder (Friedman). 1988;115:930-6 (Editorial)

Type A personality—Cont'd

Type A behavior (Scherwitz) (Letter); (Shekelle et al) (Letter); (Friedman) (Reply). 1988;115:1348-52

U

Ultrasonic diagnosis

Doppler evaluation of bioprosthetic and mechanical aortic valves: data from four models in 107 stable, ambulatory patients (Ramirez et al). 1988;115:418-25

Early partial systolic closure of the pulmonic valve relates to severity of pulmonary hypertension (Turkevich et al). 1988; 115:409-18

Ultrasonography; see Ultrasonic diagnosis

Urokinase

Treatment of right atrial thrombus with urokinase (Goldhaber et al). 1988;115:894-7 (Brief comm.)

V

Valvuloplasty, balloon; see Balloon dilatation

Variant angina; see Angina pectoris

Vasoactive agonists; see Vasoconstrictor agents

Vasoactive antagonists; see Vasodilator agents

Vasoconstrictor agents

Thromboxane synthetase inhibition reduces ventricular irritability after coronary occlusion and reperfusion (Austin et al). 1988;115:505-9

Vasodilation

Myocardial risk area and peak gray level measurement by contrast echocardiography: effect of microbubble size and concentration, injection rate, and coronary vasodilation (Vandenbergh et al). 1988;115:733-9

Vasodilator agents

ACE inhibition for the failing heart: experience with captopril (Faxon). 1988;115:1085-93 (Curriculum cardiol.)

Atrial natriuretic peptide in congestive heart failure: postural changes and reset with chronic captopril therapy (Rouleau et al). 1988;115:1060-7

Effect of the second-generation calcium channel blocker nisoldipine on left ventricular contractility in cardiac failure (Lewis et al). 1988;115:1238-44

Effects of nitroglycerin and nifedipine on coronary and systemic hemodynamics during transient coronary artery occlusion (Kern et al). 1988;115:1164-70

Vasopressor agents; see Vasoconstrictor agents

Ventricular arrhythmia; see Arrhythmia

Ventricular assist devices; see Heart-assist devices

Ventricular ejection fraction; see Stroke volume

Ventricular end-diastolic volume; see Stroke volume

Ventricular fibrillation

Absence of significant postdefibrillation bradycardia in patients with automatic implantable defibrillators (Niazi et al). 1988;115:830-6

Antifibrillatory action of the narcotic agonist fentanyl (Saini et al). 1988;115:598-605

Factors that determine the occurrence of reperfusion arrhythmias (Bolli and Patel). 1988;115:20-9

Initiation of a sustained ventricular arrhythmia resulting from R wave-synchronous AICD discharge (Gottlieb et al). 1988;115:915-7 (Brief comm.)

Paradoxical increase of ventricular fibrillation threshold in response to coronary sinus obstruction (Kralios et al). 1988;115:334-40

Spontaneous reversion of ventricular fibrillation (Patt et al). 1988;115:919-23 (Brief comm.)

Utility of the signal-averaged electrocardiogram in patients presenting with sustained ventricular tachycardia or fibrillation while on an antiarrhythmic drug (Nalos et al). 1988; 115:108-14

Ventricular premature beat; see Extrasystole

Ventricular tachycardia; see Tachycardia

Verapamil

Combined effects of calcium antagonists and nitroglycerin on large coronary artery diameter (Schwartz and Bache). 1988; 115:964-9

W**Water-electrolyte imbalance**

Multifocal atrial tachycardia from electrolyte imbalance (Strickberger et al). 1988;115:680-2 (Brief comm.)

Wolff-Parkinson-White syndrome

Clinical and electrophysiologic effects of amiodarone in patients with atrial fibrillation complicating the Wolff-Parkinson-White syndrome (Feld et al). 1988;115:102-7

Spontaneous conversion of atrial flutter to antidromic atrioventricular reciprocating tachycardia in the Wolff-Parkinson-White syndrome (Huycke et al). 1988;115:917-9 (Brief comm.)

Wolff-Parkinson-White syndrome—Cont'd

Successful use of flecainide in atrial fibrillation with rapid ventricular rate in the Wolff-Parkinson-White syndrome (Criens et al). 1988;115:1317-21 (Brief comm.)

Wounds and injuries

Development of post-traumatic coronary aneurysm: clinical implications (Wang et al). 1988;115:1306-7 (Brief comm.)

Left ventricular pseudoaneurysm due to penetrating injury of the chest: an echocardiographic diagnosis (Matsumoto et al). 1988;115:1134-6 (Brief comm.)
